

AOpen WarmTouch 19P-0A

Manufacturer:	AOpen
Others:	LCD(1440x900)
Chipset:	Intel 945GC
FSB:	533MHz
CPU Support:	Socket BGA
Installed CPU:	Intel ATOM 330 1.6GHz Dual Core
Memory Support:	1 x SODIMM DDR2, Up to 2GB
Installed Memory:	1GB DDR2 533 Mhz
Graphic Card:	Intel GMA 950
Storage (HDD) Support:	1 x 2,5" - Up to 640GB
Installed Storage (HDD):	2.5" SATA 160GB HDD
CD/DVD Drive:	No (option)
LAN:	10/100/1G Intel GbE LAN controller
Wireless LAN card:	Nie
TV Tuner:	-----

Front Panel (ports):	Left: Card Reader, 2xUSB Right: Slot ODD, Function Button
Rear Panel (ports):	2 x USB 2.0, LAN RJ45 (10/100/1G LAN), 3 x Audio Jack Stereo (Line In, Line Out), 1 x VGA, 1 x COM Port
Power:	External AC adapter
Supported OS:	Windows XP, Windows Vista
Installed OS:	None
Dimensions:	305.9mmx 460 mmx 84.7mm
Expansion:	Wi Fi (bluetooth)

Digital world in one device..

AOpen announced that it has released **warmTOUCH**, its new all-in-one digital signage solution specially tailored for single retail stores with an emphasis on cost efficiency.

The solution allows single retail store owners to enjoy the business opportunities brought by the digital signage without building large and complicated digital platform and infrastructure. Applying all-in-one concept and excellent design capability, AOpen integrates mainframe computer and 19" LCD display. It also offers a variety of portrait and landscape stands specially designed for warmTOUCH according to retailers' needs. Retailers only have to install the all-in-one computer on the stand and turn it on, eliminating the needs for difficult and lengthy learning and operating process. It helps more retailers to implement digital signage to enjoy its convenience.

Implemented advanced technology...

[go top...](#)

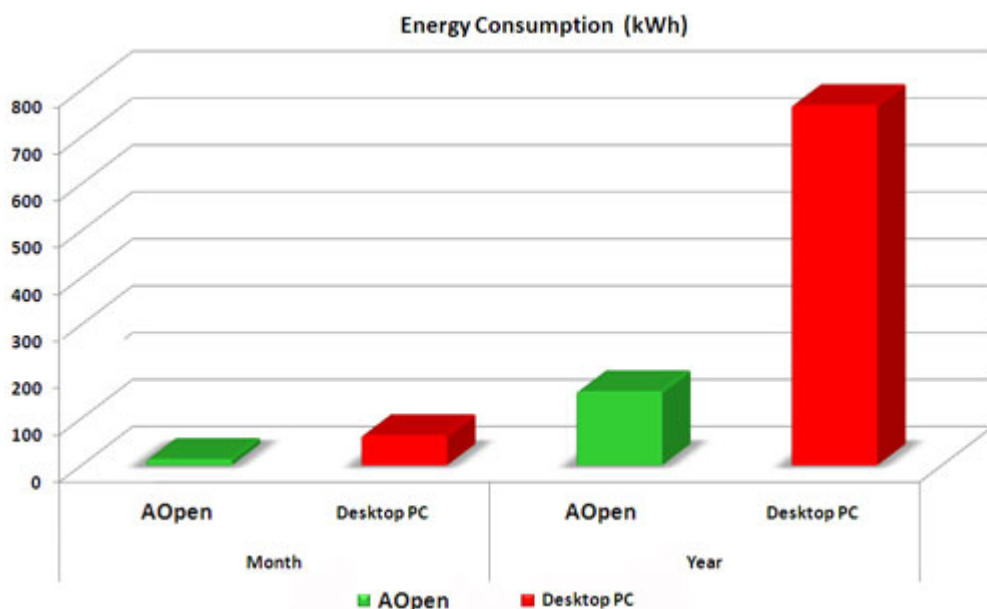

AOpen warmTOUCH 19P all-in-one mainframe computer adopts Intel® Atom™ 330 Duo - Core processor. It also has built-in 1GB DDR-II memory, 2.5" up to 640GB hard disk drive, multi-in-one memory card reader, 1.3M pixels digital webcam, and optional slim DVD recorder. Through special structure and industrial engineering, its 19" LCD display allows users to switch the monitor between portrait and landscape mode. Users can also choose to purchase dedicated touch panel and turn the mainframe PC into interactive digital signage.

Power save and silence...

[go top...](#)

Thanks to use of energy-saving technologies the WarmTouch uses many less electric energy, and his culture of work pierces the standard stationary computer many the times. 19P-0A will only cause 24db when operating with AOpen's special designed thermal solution.

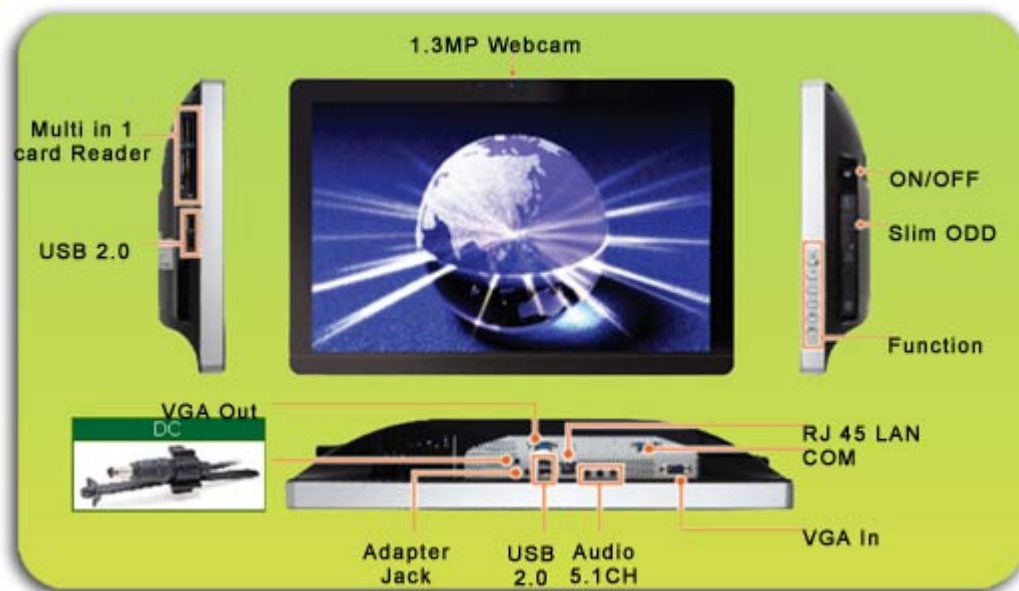

Connectivity...

AOpen WarmTouch has an option for built-in 802.11b/g/n wireless and optional slim DVD MultiCombo recorder

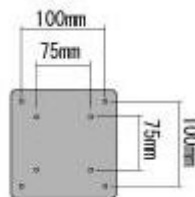

Using & interface..

Use...

Different from the average all-in-one computers, AOpen warmTOUCH is specially designed for business applications in digital signage. It features a far more robust structure design, a heavy-duty steel body clad in nice-looking plastics, the no-hole design above the anti-dust body, the symmetrical design to switch the monitor between portrait or landscape mode, the standard VESA supports with reserved holes, and ventilation/thermal design for long-time use. These features make AOpen warmTOUCH ideal for demanding retail store applications. Furthermore, AOpen warmTOUCH offers a variety of stands, including fixed stands, mobile stands and desktop stands, giving the small retailer owners freedom to select the most appropriate one.
