## SPECIFICATION

## RESISTANCE

## WIRELESS COMMUNICATION

## FUNCTIONALITY

## APPLICATION

## AVAILABLE VERSIONS AND ACCESSORIES

Chainway C60 is a modern, waterproof industrial smartphone designed for extreme applications. It has a specially designed, reinforced construction that

meets the requirements of IP65, which confirms the protection of the device against dust and water.

## SPECIFICATION

Chainway C60	
Processor	Cortex-A53 MT6762 2.0GHz Octa-Core (8x2.0GHz)
Operating system	Android 11.0 GMS AER
RAM	3GB
ROM	32GB
Display	4", (18:9), 1080 x 540, TFT α-Si
Touch screen	Multi-touch

## Chainway C60

Battery	4350mAh Standby: up to 490 hours Continuous use: over 12 hours Charging time: 2.5 hours
Camera	13Mpx (Flash) Back + 5MPx Front
Protection	IP65   1.5m. drop test
Communication	4G   Bluetooth 4.2   Wi-Fi (2.4+5G)   GPS
Connectors	USB Type-C, USB 2.0, OTG
Memory card	Micro SD (max. 128 GB)
SIM card	Nano SIM
NFC	YES 13.56Mhz
2D Scanner	Zebra SE4710

Detailed specification of the device is available in the tab "Technical data".

Dustproof industrial smartphone  
Chainway C60  
was equipped with high performance, energy-efficient Cortex-A53 2.0GHz  
Octa-core  
processor. Inside, there are  
eight cores that allow for more efficient processing of multiple tasks  
simultaneously. Shared caching, which uses a multi-level hierarchy, is  
dynamically allocated to each processor core according to the load. This  
reduces the average access time to main memory. Enhanced graphics card  
technology lets you enjoy HD video and movies. Low power consumption  
guarantees long battery life.

### Ergonomic design

Chainway C60 industrial smartphone is designed for resistance and convenience. The sleek and rugged 16.8mm thick design and stylish case will make the smartphone very well suited for industrial use and more. The unique size has been carefully thought out to make the device more comfortable and ergonomic. The non-slip casing makes it safe and secure to hold it in your hand, and the rubber corners further protect your device against possible damage as a result of falls.

<b>Dimensions</b>	159.5mm x 65.7mm x 16.8mm
<b>Weight</b>	219g

Keypad

## RESISTANCE

### IP65 Protection

The IP standard defines the degree of protection provided by the enclosure of an electrical device against such factors as: access to dangerous parts inside the enclosure, penetration of foreign matter, splashing or immersion.

#### IP6X

No ingress of dust, complete protection against contact. A vacuum must be applied. Test duration of up to 8 hours.

#### IPX5

Water projected by a nozzle (6.3 mm) against enclosure from any direction shall have no harmful effects.

### 1.5m drop resistance

Specially designed construction gives the machine a chance of accidental falls from up to 1.5 meters in operating mode, even on hard surfaces. In addition, the smartphone screen is protected by specially tempered glass Gorilla Glass.

### Extreme temperatures

Chainway C60 is suitable for continuous operation in both low and high temperatures in the range of -20 ° C to 50 ° C. When the device is off, it can handle temperatures ranging from -40 ° C to 70 ° C. In addition, the rugged industrial smartphone performs well in rooms with increased humidity, ensuring proper operation even with 95% relative humidity.

<b>Working Temp.</b>	-20°C to 50°C
<b>Storage Temp.</b>	-40°C to 70°C
<b>Humidity</b>	5% do 95%

### WIRELESS COMMUNICATION

### GPS Navigation

Waterproof smartphone Chainway C60 is equipped with a professional GPS module combining low power consumption with high accuracy. Navigation is fast and smooth, allowing you to easily and easily reach any destination.

### Bluetooth 4.2

Bluetooth enables wireless short-range communication between various electronic devices, such as the keyboard, computer, laptop, palmtop, mobile phone and many others. In the fourth version of this standard, energy consumption was reduced considerably, at the expense of lower transfer costs, and real operating coverage increased.

## Wi-Fi network

Dual-band Wi-Fi provides fast network access wherever you can connect to secured or open Wi-Fi networks. This is a convenient solution for people who have a work or residence router and a wireless network that can be used at no extra cost. The shock-resistant industrial smartphone, is equipped with the latest 802.11ac technology, which allows file transfer speeds up to 1 Gb/s.

<b>Standards</b>	802.11 (a/b/g/n/ac/d/e/h/i/k/r/v)
<b>Frequencies</b>	2.4G/5G (Dual-Band)

## 4G Module

4G technology is based on a radio network with fast transmission and the rare occurrence of downtime or transfer errors. The main distinguishing feature of the 4G from its predecessor (3G) is the speed of transfer between devices. The fourth generation network offers 100 Mb / s of mobile internet speed and 25 Mb / s of packet transfer. Technology enables users, including: extremely fast radio networks, Internet access, personalized telephony, and access to modern media and games services.

<b>4G Module</b>	B1/B3/B5/B7/B8/B20/B38/B39/B40/B41
<b>3G Module</b>	WCDMA:850/900/1900/2100MHz 850/900/1800/1900 MHz

## FUNCTIONALITY

### NFC

Short-range communication, known as NFC, is a radio communication standard that allows for wireless data exchange at a distance of a few centimeters. This technology is a simple extension of the proximity card standard that combines smart card interface and reader in one device. NFC devices can communicate with existing equipment in the standard ISO / IEC 14443 (cards and readers) as well as with other NFC devices, and thus are compatible with existing and already used public transport and payment infrastructures such as MIFARE.

## Barcode Scanner

Quick and accurate identification of the object relieves the warehouseman and does not create a bottleneck in logistics processes. 2D barcode reader allows you to read, decode and send to your data stored in the bar code. With dynamic scanning capabilities Chainway C60 quickly and accurately retrieves the data, which helps to increase the rate and efficiency. You can jump-start a whole because with simplified installation procedure and intuitive, comfortable design to prepare the scanner to work is very easy.

Zebra SE4710

### Android Enterprise

Chainway C60 is listed on Android Enterprise. Android Enterprise is a Google-led initiative to enable the use of Android devices and apps in the workplace. The program offers APIs and other tools for developers to integrate support for Android into their enterprise mobility management (EMM) solutions. Android Enterprise Recommended makes it easy for businesses to select, deploy, and manage Android devices and the appropriate services. Thanks to this program, you can be sure that such devices and services meet

the high requirements related to their use in the company, which is confirmed by their approval by Google. The link to the device on the Google list is [HERE](#).

## APPLICATION

### Trade and Services

Thanks to their size and light weight, smartphone data collectors are a useful tool for sales representatives. Today's applications running under the collector system enable even entering the data collector's contractor database, which allows us to later search for it quickly by name or NIP number. We can do the same with our commodity base, which can work in parallel with the database of contractors. Additional use of collectors in the trade, such as sending orders or invoices directly to the company through the GSM network or Wi-Fi.

## Industry and Construction

Industrial smartphones and data collectors are characterized by high resistance to adverse working conditions. Tightness, dust and water resistance of enclosures, certified by IP (dust and water resistance standards), can withstand even the harshest conditions in industrial infrastructure or on the construction site. With appropriate applications, collectors can be used for control and control of various industrial processes, as well as for data collection and analysis.

## Warehouse

An industrial data sheet is the ideal solution for quick stocktaking. In addition, depending on the software used, it streamlines the process of entering and delivering goods into the warehouse, enables price control and dispensing, helps to collect and order orders, and identifies customers and servicing the rental. The advantages of using data collectors are undoubtedly: time savings, customer satisfaction thanks to the correct price and speed of operation.

## AVAILABLE VERSIONS AND ACCESSORIES

The industry-leading Chainway C60 smartphone is available in several versions to suit different needs. By clicking on the hardware configuration number you will be redirected to the product with the parameters given in the table below. In addition, on request, you can create a configuration not currently available in the offer.
