

Chainway MC95 - Rugged warehouse scanner with NFC module, eight-core processor, 3GB RAM and 32GB ROM with 2D scanner

Category:	UMPC - Ruggedized
Manufacturer:	CHAINWAY
Operating System:	Android 12
Display:	5.5" (1440 x 720)
Brightness:	-----
Processor:	MT6762/8768 Octa-core, 2.0 GHz
Memory:	3GB
Hard Drive:	-----
Flash Memory:	32GB ROM
Touch screen:	Yes
Durability:	IP68
Drop:	1.5 meters
Shock:	-----
Vibration:	-----
Temperature:	Operating temperature: -20°C to 50°C Storage temperature: -40°C to 70°C

Humidity:	5% - 95%
1D barcode scanner (reader):	2D Newland CM60
2D barcode scanner (reader):	2D Newland CM60
RFID scanner (reader):	YES NFC ISO15693, ISO14443A/B, MIFARE
Other:	Proximity Sensor Light Sensor Accelerometer
Battery:	5000mAh rechargeable polymer lithium
Working time on battery:	-----
Fast battery replacement ability:	Yes
HotSwap battery:	YES
LAN:	No
WLAN:	IEEE802.11 a/b/g/n/ac,
Bluetooth:	Bluetooth 5.0
WAN:	GSM/EDGE/GPRS(850/900/1800/1900) CDMA2000 1x EV-DO Rev.A BC0 (800MHz) TDD-LTE(B34/B38/B39/B40/B41) FDD- LTE(B1/B3/B5/B7/B8/B20/B28A/B28B) WCDMA(B1/B5/B8)
GPS:	Built-in (GPS) + Glonass + Beidou + Galileo
Camera:	Aparat przedni: 13MP, Aparat tylni: 5MP
In/Out:	1x MicroSD (TF), 1x Nano SIM, 1x SIM, USB-C
Optional accessories:	Charge Cradle Handle Battery Strap
Docking station connector:	No
VESA standard – holders and mounts support:	No
COM port:	No
Magnetic card reader (MSR):	No
Microchip card reader:	No
Contrast:	-----
Graphics card:	-----
Chipset:	-----
BIOS:	-----

Casing material:	High quality plastic
Flash Card Reader:	MicroSD - max. 128GB
CD/DVD:	-----
Audio:	Built-in Speaker, Microphone
Keyboard:	Numeric (+ function keys)
Additional Navigation Devices :	No
Color:	Black
Swivel Hinge:	No
VGA out:	No
TV Out:	No
TV Tuner:	No
Security:	IP68
Waterproof:	IPX8
Sand and dust:	IP6X
Size:	160x 75 x 16mm
Fanless casing:	Yes
Weight:	288g

DATA COLLECTING

WIRELESS COMMUNICATION

APPLICATION

ACCESSORIES AND AVAILABLE VERSIONS

Chainway MC95 is a modern, waterproof industrial data collector with a pistol grip designed for extreme applications. It has a specially designed, reinforced construction that meets the requirements of IP68.

SPECIFICATION

Chainway MC95

Processor	MT6762/8768 Octa-core, 2.0 GHz
Operating system	Android 12
RAM	3GB
Flash	32GB ROM
Display	5.5" (1440 x 720)
Touch screen	Capacitive
Battery	5000 mAh
Camera	Front Camera: 13MP Rear Camera: 5MP
Protection	IP68
Communication	4G LTE Bluetooth 5.0 Wi-Fi GPS GSM
Connectors	USB Type-C USB 2.0 OTG
Memory card	1x MicroSD - max. 128GB
SIM card	1x SIM
Sensors	Proximity Sensor Light Sensor Accelerometer
2D Scanner	2D Newland CM60
NFC	YES
Warranty	1 year

Detailed device specification is available in the "Technical data".

Dustproof industrial data collector was equipped with high performance, energy-efficient MT6762/8768

processor. Inside, there are eight cores that allow for more efficient processing of multiple tasks simultaneously. Shared caching, which uses a multi-level hierarchy, is dynamically allocated to each processor core according to the load. This reduces the average access time to main memory.

Ergonomic design

Industrial Data Collector Chainway MC95 is designed for resistance and convenience. The sleek and rugged design and stylish case will make the collector very well suited for industrial use and more. The unique size has been carefully thought out to make the device more comfortable and ergonomic. The non-slip casing makes it safe and secure to hold it in your hand.

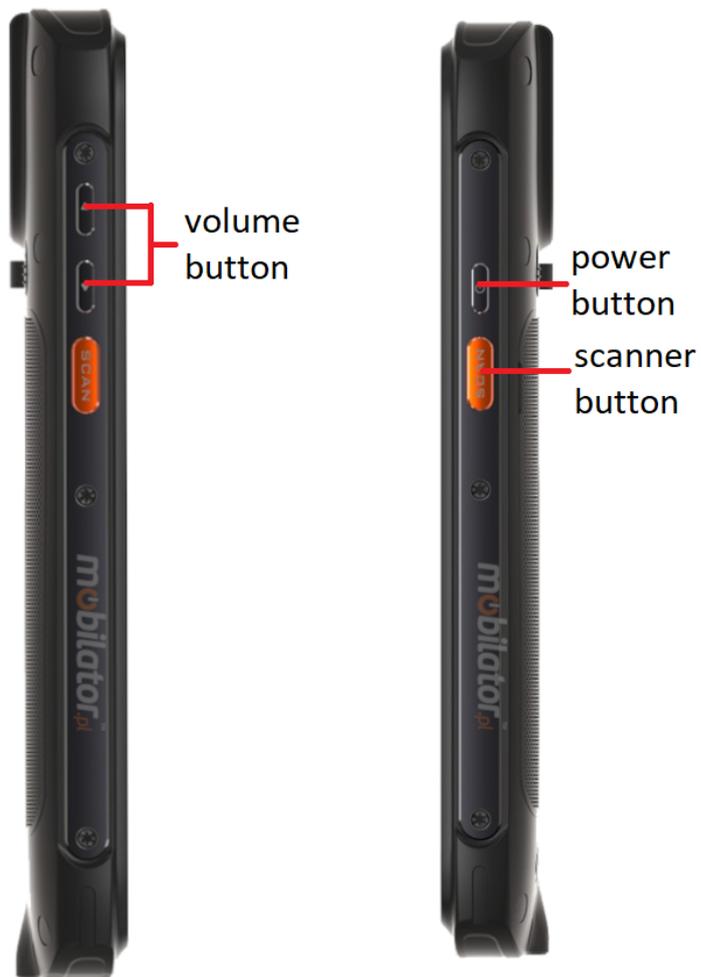

Dimensions

160x 75 x 16mm

Net weight

288g

Ergonomic design

Capacitive screen

With the capacitive screen, the reaction of the device is not to directly press the screen, but to change the electrostatic field at the point where the device is touched. This allows for much more precise handling and gentle brushes on the screen. In addition, we can use multitouch technology, the ability to control our collector with a few fingers at once.

RESISTANCE

IP68 Protection

The IP standard defines the degree of protection provided by the enclosure of an electrical device against such factors as: access to dangerous parts inside the enclosure, penetration of foreign matter, splashing or immersion.

IP6X	No ingress of dust, complete protection against contact. A vacuum must be applied. Test duration of up to 8 hours based on air flow.
IPX7	Protection against the effects of continuous immersion in water to a depth of more than 1 meter.

1.5m drop resistance

Specially designed construction gives the machine a chance of accidental falls from up to 1.5 meters in operating mode, even on hard surfaces. In addition, the collector screen is protected by specially tempered glass.

Extreme temperatures

Chainway

MC95

is suitable for continuous operation in both low and high temperatures in the range of -20°C to 50°C. When the device is off, it can handle temperatures ranging from -40°C to 70°C. In addition, the rugged industrial collector performs well in rooms with increased humidity, ensuring proper operation even with 95% relative humidity.

Working Temp.	-20°C to 50°C
Storage Temp.	-40°C to 70°C
Humidity	5 ~ 95%

DATA COLLECTING

2D Barcode Scanner

Skaner kodów 2D

Barcode Reader allows you to read, decode and transfer stored data in barcode to your computer. Thanks to dynamic scanning method and the large range of reading, data collector is capable to carefully collecting data, which helps to increase the rate and efficiency of work. Simplified installation procedure, convenient and intuitive design allow to start scanner work very easy and quickly.

2D Scanner

2D Newland CM60

NFC

Near Field Communication - a short-range, high-frequency, radio communication standard that allows for wireless data exchange at a distance of up to several centimeters. The technology is a simple extension of ISO14443A/B that combines the smart card interface and reader in one device. NFC devices can communicate with both existing devices in the ISO14443A/B3 standard, as well as with other NFC devices, and thus are compatible with the existing and already in use public transport and payment infrastructure. NFC present in the device supports ISO / IEC 14443A / B and ISO15693 protocols. Working distance is 2-4 cm.

WIRELESS COMMUNICATION

4G Module

4G technology is based on a radio network with fast transmission and the rare occurrence of downtime or transfer errors. The main distinguishing feature of the 4G from its predecessor (3G) is the speed of transfer between devices. The fourth generation network offers 100 Mb / s of mobile internet speed and 25 Mb / s of packet transfer. Technology enables users, including: extremely fast radio networks, Internet access, personalized telephony, and access to modern media and games services.

4G Module	FDD-LTE (B1 / B2 / B3 / B4 / B5 / B7 / B8 / B12 / B17 / B20 / B28A / B28B) TDD-LTE (B38 / B39 / B40 / B41)
3G Module	GSM (B2 / B3 / B5 / B8) WCDMA (B1 / B2 / B4 / B5 / B8) TD-SCDMA (B34 / B39)

4G

GPS Navigation

The Chainway

MC95

mobile terminal is equipped with a professional A-GPS module (GPS+Glonass+Beidou+Galileo) combining low power consumption with high accuracy. The navigation works quickly and smoothly, which will allow you to reach any destination in an easy and simple way.

Bluetooth 5.0

Bluetooth 5.0 enables wireless short-range communication between various electronic devices, such as the keyboard, computer, laptop, palmtop, mobile phone and many others. In the fourth version of this standard, energy consumption was reduced considerably, at the expense of lower transfer costs, and real operating coverage increased.

Wi-Fi network

Dual-band Wi-Fi provides fast network access wherever you can connect to secured or open Wi-Fi networks. This is a convenient solution for people who have a work or residence router and a wireless network that can be used at no extra cost. The shock-resistant industrial collector is equipped with the latest IEEE802.11 technology, which allows file transfer speeds up to 500 Mb/s.

Standards	IEEE802.11 a/b/g/n/ac
Frequencies	2.4GHz + 5GHz (Dual-Band)

APPLICATION

Trade and Services

Thanks to their size and light weight, smartphone data collectors are a useful tool for sales representatives. Today's applications running under the collector system enable even entering the data collector's contractor database, which allows us to later search for it quickly by name or NIP number. We can do the same with our commodity base, which can work in parallel with the database of contractors. Additional use of collectors in the

trade, such as sending orders or invoices directly to the company through the GSM network or Wi-Fi.

Industry and Construction

Industrial data collectors are characterized by high resistance to adverse working conditions. Tightness, dust and water resistance of enclosures, certified by IP (dust and water resistance standards).

Warehouse

An industrial data sheet is the ideal solution for quick stocktaking. In addition, depending on the software used, it streamlines the process of entering and delivering goods into the warehouse, enables price control and dispensing, helps to collect and order orders, and identifies customers and servicing the

rental. The advantages of using data collectors are undoubtedly: time savings, customer satisfaction thanks to the correct price and speed of operation.

ACCESSORIES AND AVAILABLE VERSIONS

Then we get a large, legible IPS display with a touch screen. Both Data Collectors can be equipped with accessories that facilitate the work. We can choose between a charge cradle, a battery that extends the operating time of the device. Collector will make your work easier and make the performance of tasks a pleasure.
