

Computer Industry Fanless MiniPC IBOX N3P v.7 - small miniPC with 4x USB 2.0, 2x USB 3.0 ports, WiFi, BT and 2x RJ-45 LAN, 500GB HDD disk and 4GB RAM DDR3L

Category:	MiniPC Industry
Manufacturer:	Mobikator
Supported OS:	Microsoft Windows: 7/8/10, Linux
Installed OS:	-----
Chipset:	Intel express chipset
CPU Support:	Intel Pentium
Installed CPU:	Intel Pentium N3540 (2x 2.20GHz) 2 MB L2 Cache
Graphic Card:	Intel HD Graphics
Memory Support:	DDR3L SO-DIMM (max. 8GB)
Installed Memory:	4GB DDR3L
Storage (HDD) Support:	SSD / HDDmSATA / SATA
Installed Storage (HDD):	500GB HDD SATA
IP Norm:	-----
Temp:	0°C — 50°C
Storage temperature:	10°C — 60°C

Humidity:	5% ~ 95%
Others:	Color Black
LAN:	2x 10/100/1000M RTL8111E 1000M LAN
Wireless LAN card:	Yes
3G:	-----
4G LTE:	-----
Bluetooth:	Yes
Rear Panel (ports):	1x Audio, 2x RJ45 LAN, 1x VGA, 1x HDMI, 1x Power Connector DC12V
Front Panel (ports):	1x Power Switch, 1x USB3.0, 5x USB2.0, 2x RS232 COM
Expansion:	-----
Power:	12V4A
Watch Dog Timer:	Yes
CD/DVD Drive:	-----
TV Tuner:	-----
Dimensions:	134mm x 126mm x 38.5mm
Fanless:	Yes
Weight:	700g

Product from the Archive - production finished

IBOX N3P

TECHNICAL SPECIFICATION

RESISTANCE AND DURABILITY

CONNECTIVITY AND COMMUNICATION

DEVICE APPLICATION

AVAILABLE VERSIONS

Small dimensions industrial computers excel in environments where dust, dirt and moisture predominate. They are ideal for applications requiring quiet operation. Small and reliable MiniPC use heat-pipe technology and aluminum fins for passive cooling. The robust mini Industrial Computer IBOX N3P is a device designed for all industrial and non-continuous applications requiring continuous operation - 24 hours, 7 days a week.

Small dimensions

The compact housing means that the Mini PC will fit wherever you need it and is easy to carry.

Efficient components

The Intel Pentium N3540 dual-core CPU provides improved device performance.

Quick start*

A modern SSD drive will increase the speed of application programs and ensure quiet computer operation.

Lightweight design

The computer's weight does not exceed 1.0 kg, so it can be conveniently carried in a bag or backpack.

Wireless network

The mini PC can be connected to nearby wireless networks by equipping it with an optional Wi-Fi module.

Passive cooling

The use of passive cooling in the Mini PC ensures silent operation and slows dust deposition.

* Optional equipment, available only in other versions of the device.

SPECIFICATION

Performance

Processor	Intel Pentium N3540 (2x 2.20GHz)
Graphics card	Intel HD Graphics
Operating system	Windows 7/8/10 Linux
RAM	4GB DDR3L
Drive	500GB HDD SATA

Interfaces

Connectivity	Wi-Fi , Bluetooth LAN - 2x 10/100/1000M RTL8111E 1000M LAN
Front panel	4x USB 2.0 / 2x USB 3.0 / 1x RS232 / Power On/Off
Rear panel	Power connector / 2x RJ-45 LAN / 1x HDMI / 1x VGA / 1x Audio

Other

Available colors	Black
Dimensions	134mm x 126mm x 38.5mm
Weight	0.7kg

Detailed device specification is available in the "Technical data" tab.

EFFICIENT PROCESSOR

The industrial mini-computer IBOX N3P uses an efficient and energy-saving Intel Pentium N3540 processor. Inside it there are four cooperating cores enabling more efficient processing of many tasks at the same time. The shared cache memory in which the multilevel hierarchy is used is dynamically allocated to each processor core depending on the load. This reduces the average access time to the main memory.

INTERFACES

DIMENSIONS

PASSIVE COOLING

The industrial Mini PC uses a proven cooling system, based only on solid elements, mainly heat sinks. The system uses the phenomenon of metals passing thermal energy into the environment - there are no additional moving elements in the form of eg fans. This solution ensures noiseless operation, lower failure rate and greater protection against dust and other dirt while reducing the amount of energy consumed.

RESISTANCE

TEMPERATURES

IBOX N3P is designed for continuous operation in both very low and high temperatures ranging from 0°C to 50°C. If the device is switched off, it can already handle temperatures in the range of 10°C to 60°C.

Work temp.	0°C — 50°C
Storage temp.	10°C — 60°C
Humidity	5% — 95%

MECHANICAL DAMAGE

The passive cooling system used in the MiniPC IBOX N3P combined with the non-disk SSD* make this computer very resistant to various types of mechanical injuries. An additional advantage of industrial computers is a solid construction made of high quality aluminum and specially designed in such a way that in addition to high efficiency in heat dissipation, it can also resist any external damage.

WIRELESS NETWORK

The dual-band Wi-Fi module provides quick access to the network wherever you can connect to secured or open Wi-Fi networks. This is a convenient solution for people who have a router at home or place of residence and a wireless network that can be used at no extra charge. Industrial mini-PC IBOX N3P has been equipped the standard of - 802.11n, which allows transfer of files at a dizzying speed of up to 300 Mb / s.

WIRED LAN NETWORK

The MiniPC IBOX N3P has built two network adapters that can work in a fast Gigabit Ethernet network.

TRADE AND SERVICES

Mini PC is an ideal tool to support us in the implementation of many activities in the field of trade, small dimensions increase the possibility of its adaptation to activities such as issuing invoices or preparing documentation, which in turn allows us to convenient and optimal sales management.

WAREHOUSE AND LOGISTICS

Thanks high performance an industrial computer can be used to connect multiple devices in a warehouse and make their management much easier. Its rugged casing and the fanless cooling system are ideal for harsh environments in such rooms. The solid construction guarantees long-lasting work, even in environments with high dustiness and dirt.

TRANSPORT AND MOTORIZATION

A small industrial computer can be used in transport thanks to the ability to work on 12V power supply. Then the mini computer can be used in passenger cars, buses, trams, taxis, trains and even in airplanes. It allows you to inform the driver about the current state of the vehicle, transfer its current location to the management center, display information for passengers, etc. It performs well in vehicles where small dimensions are important.

VERSIONS

The industrial mini-computer IBOX N3P is offered in several versions to suit different needs. By clicking on the number of the hardware configuration you will be redirected to the product with the parameters given in the table below. In addition, it is possible to create a configuration that is currently unavailable on the customer's request.

	v.1	v.2	v.3	v.4	v.5	v.6	v.7	v.8	v.9
