

Docking station - Emdoor I16K

Category:	Accessories - mobile
Manufacturer:	EMDOOR

Product from the Archive - production finished

Description

- » Stability
- » Easy to use
- » Comfortable work
- » Compatible with Emdoor I16K
- » Ports: 2x USB 2.0, 1x RS232, 1x RJ-45, 1x DC 12V

The docking station provides stability during the use of the device. It is easy and comfortable to use. The advantage is certainly the small size of the charging station.

The individual connectors can be used as follows:

1. RS232:

- for communication, management and control of external devices
- for connecting DTE devices managing the communication process (microprocessors or another computer)

2. RJ-45 - standard connector for data transmission from the Internet and LAN networks

3. USB 2.0 - a versatile port with which today you can connect almost any device that transfers data. These ports are for data transfer, but do not support battery charging in smartphones and other external devices.
