Opis

The **Emdoor** docking station enables convenient reliable charging of the internal battery of the device. Compatible with Emdoor T81X.

This docking station allows for use of 4 interfaces: 1x RJ-45 and 3x USB, which work after connecting to 5V DC.

These interfaces can be used for example:

1. RJ-45 - standard interface to send and receive data from local network.
2. USB - versatile port with which you can connect almost any device (keyboards, mice, trackballs, printers).
