16,80 €

net price: 13,66 €

» Easy to use

» Compatible with EMDOOR V10J

» Input voltage: 8.4V - 30V

» Output: 19V/3A

The Emdoor V10J professional car adapter for the tablet supports a wide input voltage range from 8.4V to 30V, allowing it to work in passenger cars, trucks, and construction machinery. It provides a stable 19V/3A output, ensuring safe and efficient charging in all terrain conditions. Its robust design with a built-in anti-interference filter protects the tablet from voltage spikes in the vehicle's electrical system.
