

HMI EX43H(A)/EX50KH(A) PLC - Analog output x1

Category:	Accessories - mobile
Manufacturer:	Mobikator

Product from the Archive - production finished

Single PLC output for standard analog signals for EX43H, EX43HA, EX50KH and EX50KHA operator panel.

DESCRIPTION:

In automatics the term single output, which has an analogue signal. The output, due to the way the size is presented, is divided into voltage and current. Analog output is the basic component of analog PLC output blocks. The controller can not control external devices such as temperature regulators, frequency inverters or servo drives.
