

IBOX 1112N v.3 - Rugged industrial desktop with Intel Celeron J6412 processor, WiFi6, 512GB M.2 SSD, and 8GB RAM

Category:	MiniPC Industry
Manufacturer:	Mobikator
Others:	Color black
Chipset:	Intel Chipset
CPU Support:	Intel Celeron
Installed CPU:	Intel Celeron J6412 (4x 2.60GHz)
Memory Support:	DDR4
Installed Memory:	8GB
Graphic Card:	INTEL UHD GRAPHICS
Storage (HDD) Support:	SSD M.2 HDD
Installed Storage (HDD):	512GB SSD M.2
CD/DVD Drive:	-----
LAN:	3x2.5 GbE Intel i2256-V
Wireless LAN card:	Intel-AX210(M.2) (WiFi6)
Bluetooth:	No

3G:	-----
4G LTE:	-----
TV Tuner:	-----
Watch Dog Timer:	Yes
Front Panel (ports):	Sim slot 3x USB 2.0 3x USB 3.0 COM
Rear Panel (ports):	3x LAN 2x DP HDMI
Power:	12V
Supported OS:	Windows: 11 Linux
Installed OS:	-----
Dimensions:	150 x 126.5 x 45 mm
Weight:	840g
Expansion:	-----
Fanless:	Yes
Humidity:	0% ~ 95%
Temp:	-10°C do 60°C
IP Norm:	-----
Storage temperature:	-10°C do 60°C

SPECIFICATION

RESISTANCE AND DURABILTY

CONNECTIVITY AND COMMUNICATION

APPLICATION

AVAILABLE VERSIONS

Small dimensions industrial computers excel in environments where dust, dirt and moisture predominate. They are ideal for applications requiring quiet operation. Small and reliable MiniPC use heat-pipe technology and aluminum fins for passive cooling. The robust mini Industrial Computer IBOX 1112N is a device designed for all industrial and non-continuous applications requiring continuous operation - 24 hours, 7 days a week.

Compact Dimensions

The compact housing allows the Mini PC to fit wherever it's needed and makes it extremely easy to carry.

Lightweight Design

The PC weighs less than 1.0 kg, so it can be comfortably carried in a bag or backpack.

High-Performance Components

The quad-core Intel Celeron J6412 CPU provides enhanced performance for all your tasks.

Wireless Connectivity

The Mini PC can connect to nearby wireless networks thanks to its optional Wi-Fi module.

Fast Boot-Up

Modern M.2 SSD storage increases application speeds and ensures silent operation.

Passive Cooling

The use of passive cooling ensures silent operation and significantly slows down dust accumulation.

SPECIFICATION

IBOX 1112N	
Processor	Intel Celeron J6412 (4x 2.60GHz)
Operation system	Support Windows 11
RAM	8GB DDR4 16GB DDR4* (option)

IBOX 1112N

Drive	128GB SSD M.2* (option) 256GB SSD M.2* (option) 512GB SSD M.2 1TB SSD M.2* (option) 512GB SSD* (option) 1TB SSD* (option)
Graphic card	Intel UHD Graphics
Connectivity	WLAN (WiFi6) : Intel-AX210(M.2) WLAN (WiFi5) : RTL8821AE-DUAL * (option) LAN : 3x Intel i2256-V 2.5G LAN
Front panel	Slot Sim 3x USB 2.0 3x USB 3.0 COM
Rear panel	3x LAN 2x DP HDMI
Dimensions	150 x 126.5 x 45mm
Weight	0,84 kg

* Optional equipment, available only on specific version or on request.

Detailed device specification is available in the "Technical data"

Efficient processor

The industrial mini-computer IBOX 1112N uses an efficient and energy-saving Intel Celeron J6412 processor. Inside it there are four cooperating cores enabling

more efficient processing of many tasks at the same time. The shared cache memory in which the multilevel hierarchy is used is dynamically allocated to each processor core depending on the load. This reduces the average access time to the main memory.

Interfaces

3*i225-v 2.5G Lan

1*HDMI (4K 60Hz)

2*DP (4K 60Hz)

Dimensions

Dimensions	150 x 126.5 x 45mm
Net weight	840g

Passive cooling

The industrial Mini PC utilizes a proven cooling system based solely on solid components, primarily heat sinks. This system utilizes the principle of metals dissipating thermal energy into the environment—there are no additional moving parts, such as fans. This solution ensures silent operation, reduced

failure rates, and greater protection against dust and other contaminants, while simultaneously reducing energy consumption.

RESISTANCE AND DURABILITY

Mechanical damage

The passive cooling system used in the MiniPC IBOX 1112N combined with the SSD M.2 drive make this computer very resistant to various types of mechanical injuries. An additional advantage of industrial computers is a solid construction made of high quality aluminum and specially designed in such a way that in addition to high efficiency in heat dissipation, it can also resist any external damage.

Temperatures

Working Temp.	-10°C do 60°C
Humidity	0% do 95%

CONNECTIVITY AND COMMUNICATION

Wireless network (WiFi6)

The Wi-Fi module provides quick access to the network wherever you can connect to secured or open Wi-Fi networks. This is a convenient solution for people who have a router at home or place of residence and a wireless network that can be used at no extra charge. Industrial mini-PC IBOX 1112N has been equipped the standard of - Intel-AX210(M.2) Module, which allows transfer of files at a dizzying speed of up to 800 Mb / s.

Wired LAN Network

The MiniPC IBOX 1112N has built-in Intel network adapter that can work in a fast Realtek Ethernet network.

DEVICE APPLICATION

Trade and Services

Mini PC is an ideal tool to support us in the implementation of many activities in the field of trade, small dimensions increase the possibility of its adaptation to activities such as issuing invoices or preparing documentation, which in turn allows us to convenient and optimal sales management.

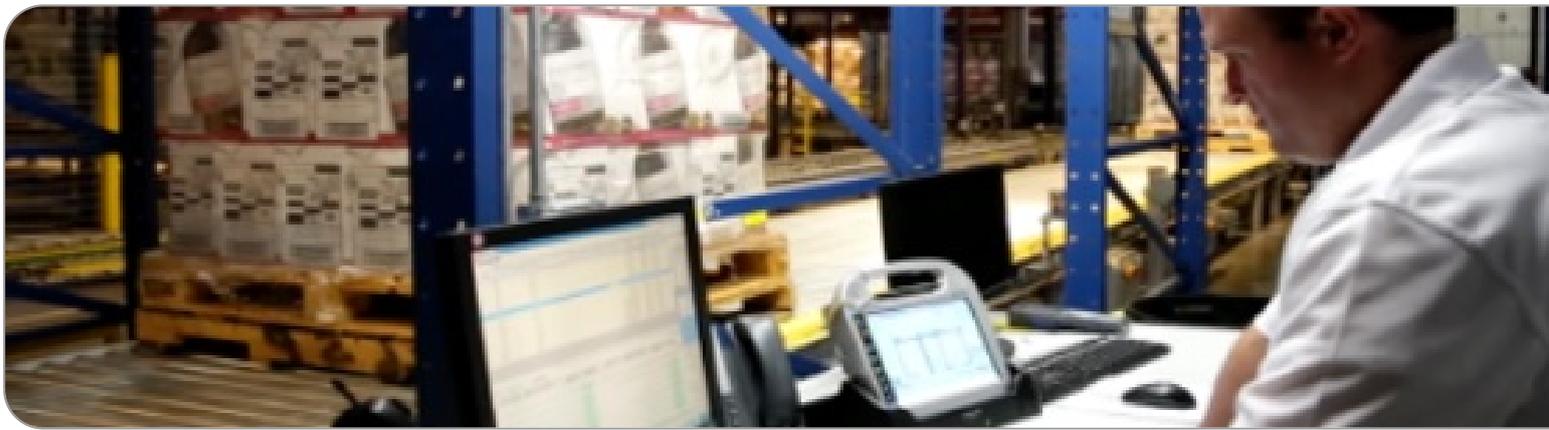

The VESA holder mounted to the housing provides many installation options, eg in stores (at the cash register, under the desktop, behind the LCD / LED monitor), in factory halls or in a delivery truck.

VESA

Warehouse and logistics

Thanks high performance an industrial computer can be used to connect multiple devices in a warehouse and make their management much easier. Its rugged casing and the fanless cooling system are ideal for harsh environments in such rooms. The solid construction guarantees long-lasting work, even in environments with high dustiness and dirt.

Transport and motorization

A small industrial computer can be used in transport thanks to the ability to work on 12V power supply. Then the mini computer can be used in passenger cars, buses, trams, taxis, trains and even in airplanes. It allows you to inform the driver about the current state of the vehicle, transfer its current location to the management center, display information for passengers, etc. It performs well in vehicles where small dimensions are important.

AVAILABLE VERSIONS

The industrial mini-computer IBOX 1112N is offered in several versions to suit different needs. By clicking on the number of the hardware configuration you will be redirected to the product with the parameters given in the table below. In addition, it is possible to create a configuration that is currently unavailable on the customer's request.
