

IBOX-ZPC X4(H110) i7 6700

IBOX-ZPC X4 (H110) i7 6700 v.3 - Powerful industrial computer with SSD extension (512 GB)

Category:	MiniPC Industry
Manufacturer:	Mobilator
Others:	Black
Chipset:	Intel H110
CPU Support:	Intel Core i7 6700
Installed CPU:	Intel Core i7 6700 (quad core 3.4 GHz Turbo boost to 4.0GHz)
Memory Support:	2xDDR4 2133/2400 MHz DIMM (Max: 32 GB)
Installed Memory:	16GB
Graphic Card:	Integrated Graphic Card
Storage (HDD) Support:	SSD
Installed Storage (HDD):	512GB
CD/DVD Drive:	-----
LAN:	2xRTL8111F 10/100/1000M Lan
Wireless LAN card:	Yes
Bluetooth:	-----

3G:	-----
4G LTE:	-----
TV Tuner:	-----
Watch Dog Timer:	-----
Front Panel (ports):	Power ON2xUSB2.0
Rear Panel (ports):	VGAHDMI2xLAN4xUSB3.02xUSB2.06x RS232 COM COM3 RS232/422/485)
Power:	AC 100 240V 47 63Hz
Supported OS:	Windows: 7/8//10 Linux
Installed OS:	-----
Dimensions:	262mm x 130mm x 236mm
Weight:	3.5 kg
Expansion:	-----
Fanless:	Yes
Humidity:	5% 95% Non-Condensing
Temp:	-10°C — 60°C
IP Norm:	-----
Storage temperature:	-----

Product from the Archive - production finished

IBOX-ZPC X4(H110) i7 6700

TECHNICAL SPECIFICATION

RESISTANCE AND DURABILITY

CONNECTIVITY AND COMMUNICATION

DEVICE APPLICATION

AVAILABLE VERSIONS

Small dimensions industrial computers excel in environments where dust, dirt and moisture predominate. They are ideal for applications requiring quiet operation. Small and reliable MiniPC use heat-pipe technology and aluminum fins for passive cooling. The robust mini Industrial Computer IBOX-ZPC X4 is a device designed for all industrial and non-continuous applications requiring continuous operation - 24 hours, 7 days a week.

Small dimensions

The compact housing means that the Mini PC will fit wherever you need it and is easy to carry.

Lightweight design

The computer's weight does not exceed 4.0 kg, so it can be conveniently carried in a bag or backpack.

Efficient components

The Intel i7 6700 quad-core CPU provides improved device performance.

Wireless network

The mini PC can be connected to nearby wireless networks by equipping it with an

optional Wi-Fi module.

SSD

Quick start

A modern SSD drive will increase the speed of application programs and ensure quiet computer operation.

Passive cooling

The use of passive cooling in the Mini PC ensures silent operation and slows dust deposition.

* Optional equipment, available only in other versions of the device.

SPECIFICATION

Mini-PC IBOX-ZPC X4	
Processor	Intel Core i7 6700 quad core 3.4 GHz Turbo boost to 4.0GHz
Operation system	Support: Windows 7/8/10 Linux
RAM	16 GB SODIMM DDR4
Drive	512 GB SSD
Graphic card	Integrated Graphic Card

Mini-PC IBOX-ZPC X4	
Connectivity	WiFi LAN: 2 x RTL8111F 10/100/1000M Lan
Front panel	2xUSB 2.0 Power button
Rear panel	4xUSB 3.0 2xUSB 2.0 2xLan 1xVGA 1xHDMI 1xDP 6x RS232 COM COM3 RS232/422/485
Available colors	Black
Dimensions	262 x 130 x 236 mm
Weight	3.5 kg

* Optional equipment, available only in other versions of the device.

Detailed device specification is available in the "Technical data".

Efficient processor

The industrial mini-computer IBOX-ZPC X4 uses an efficient and energy-saving Intel i7 6700 processor. Inside it there are four cooperating cores enabling more efficient processing of many tasks at the same time. The shared cache memory in which the multilevel hierarchy is used is dynamically allocated to each processor core depending on the load. This reduces the average access time to the main memory. It offers improved manageability by limiting downtime and maintaining productivity by isolating computing activities into separate partitions.

Interfaces

Dimensions

Thanks to the small dimensions of the MiniPC, the IBOX-ZPC X4 is versatile for use at home, in the office and in the industry, for example in the production hall. It's literally everywhere, and it can be mounted on the back of the

monitor to optimize the job.

The industrial Mini PC uses a proven cooling system, based only on solid elements, mainly heat sinks. The system uses the phenomenon of metals passing thermal energy into the environment - there are no additional moving elements in the form of eg fans. This solution ensures noiseless operation, lower failure rate and greater protection against dust and other dirt while reducing the amount of energy consumed.

RESISTANCE AND DURABILITY

Temperatures

IBOX-ZPC

X4

is designed for continuous operation in both very low and high temperatures ranging from -10 °C to 60°C. If the device is switched off, it can already handle temperatures in the range of -10 °C to 60 °C.

Work temp.	-10°C do 60°C
-	-
Humidity	5% 95% Non-Condensing

Mechanical damage

The passive cooling system used in the MiniPC IBOX-ZPC X4

combined with the SSD disk makes this computer very resistant to various types of mechanical injuries. An additional advantage of industrial computers

is a solid construction made of high quality aluminum and specially designed in such a way that in addition to high efficiency in heat dissipation, it can also resist any external damage.

CONNECTIVITY AND COMMUNICATION

Wireless network (Option)

The dual-band Wi-Fi module provides quick access to the network wherever you can connect to secured or open Wi-Fi networks. This is a convenient solution for people who have a router at home or place of residence and a wireless network that can be used at no extra charge. Industrial mini-PC IBOX-ZPC

X4

has been equipped the standard of - 802.11n, which allows transfer of files at a dizzying speed of up to 300 Mb / s.

Wired LAN Network

The
IBOX-ZPC

MiniPC
X4

has built-in Realtek network adapter that can work in a fast Gigabit Ethernet network.

DEVICE APPLICATION

Trade and service

Mini PC is an ideal tool to support us in the implementation of many activities in the field of trade, small dimensions increase the possibility of its adaptation to activities such as issuing invoices or preparing documentation, which in turn allows us to convenient and optimal sales management. The VESA holder mounted to the housing provides many installation options, eg in stores (at the cash register, under the desktop), in factory halls or in a delivery truck.

Warehouse and logistics

Thanks high performance an industrial computer can be used to connect multiple devices in a warehouse and make their management much easier. Its rugged casing and the fanless cooling system are ideal for harsh environments in such rooms. The solid construction guarantees long-lasting work, even in environments with high dustiness and dirt.

Transport and motorization

A small industrial computer can be used in transport thanks to the ability to work on 12V power supply. Then the mini computer can be used in passenger cars, buses, trams, taxis, trains and even in airplanes. It allows you to inform the driver about the current state of the vehicle, transfer its current location to the management center, display information for passengers, etc. It

performs well in vehicles where small dimensions are important.

AVAILABLE VERSIONS

PC+Power Cord+Driver CD

The industrial mini-computer
IBOX-ZPC X4

is offered in several versions to suit different needs. By clicking on the number of the hardware configuration you will be redirected to the product with the parameters given in the table below. In addition, it is possible to create a configuration that is currently unavailable on the customer's request.
