

Industrial Computer Fanless MiniPC IBOX-207 v.2

Category:	MiniPC Industry
Manufacturer:	Mobilator
Others:	Color Black
Chipset:	Intel NM70 express chipset
CPU Support:	-----
Installed CPU:	Intel Celeron Dual Core 1037U (2x 1.8Ghz)
Memory Support:	DDR3 (max. 8GB)
Installed Memory:	4GB DDR3
Graphic Card:	Intel HD Graphics
Storage (HDD) Support:	-----
Installed Storage (HDD):	64 GB SSD
CD/DVD Drive:	-----
LAN:	Intel RTL8111E 1000M Lan
Wireless LAN card:	Yes
Bluetooth:	Yes
3G:	No
TV Tuner:	-----
Watch Dog Timer:	0 ~ 255 sec

Front Panel (ports):	4x USB2.0, Power ON/OFF, 1~4 optional
Rear Panel (ports):	4x USB2.0COM(RS232) - 1~6, optional 2x LAN2xPS/2DC-IN 121x HDMI2x VGA1x Audio1x Mic
Power:	12V
Supported OS:	Microsoft Windows: 7/8/8.1/10, Linux
Installed OS:	-----
Dimensions:	234 x 200 x 65 mm
Weight:	~2kg
Expansion:	-----
Fanless:	Yes
Humidity:	0 ~ 95%
Temp:	-20 ~ 80
IP Norm:	-----
Storage temperature:	-20 ~ 80

Fanless MiniPC IBOX-207

Industrial Fanless

Fanless industrial PCs are excellent in environments dominated by dust, dirt and moisture. They are ideal for applications that require quiet operation. Small and reliable MiniPC use of heat-pipe technology and aluminum fans for passive cooling.

MiniPC IBOX-207 is a series of devices for industrial applications requiring continuous operation - 24 hours, 7 days a week.

Housing dimensions are **200 (W) x 234 (L) x65 (H) mm**. Housing is made of high quality aluminum what ensures a very high resistance to mechanical damages. This model is ready at any time for operation even in extreme conditions such as heat, cold, vibration.

Using the latest technology Digital Engine (industrial fanless MiniPC) is designed for continuous multitasking operating with low power consumption. An important advantage is the effective combination of small size with considerable opportunities through the use of Intel's processor family, Intel chipset and **2/4GB DDR3** memory. Integrated **Intel HD Graphics** video and audio **Realtek ALC662** allow you to play a wide range of applications and media files (video, audio) - in Full HD quality. Disks offer free space **32GB/64GB/128GB SSD** and **500GB HDD**.

Integrated cards - **Intel RTL8111E 1000M Lan** and **WiFi** module allows connection to the network. The computer is equipped with: two **LAN** ports, one **VGA** port, optional **COM** ports (max. 10), one **HDMI** port, eight **USB 2.0** ports, and a built-in connector on the motherboard: three **SATA** ports, one **MiniSATA** port, one **SIM Card** slot, two **Mini-PCIE** connectors, four **USB 2.0** connectors and one **GPIO** slot.

Cooling

The industrial fanless MiniPC IBOX-207 uses a special method of cooling. This cooling takes place mainly by means of housing having a very large surface (longitudinal lamells, ribs) - for heat dissipation. Fan used inside the computer is designed to rapidly drain hot air from the CPU, allowing MiniPC to reach more efficiently and faster cooling.

Industrial MiniPC IBOX-207 are based on high-performance two-core processors and high-quality components. Mini computers are locked in small industrial housing which perfectly discharge heat from the device interior. Wide choice of IBOX models can give possibility to configure, enabling optimal selection of mini computer to multimedia applications and industrial applications. The biggest advantages of these devices are: small size, performance and energy efficiency. An extra pair of brackets at the bottom of the enclosure increases the possibility of installation in all kinds of places and positions. Offered model mini PC has been selectively chosen and configured specifically to the requirements of Digital Signage systems, gaming machines, amusement machines, information kiosks and industrial automation systems.

Areas of use of industrial MiniPC

Digital Engine

Trade

Small, fanless computer can find various of commercial applications such as computer system for sale, for display informations about the products on monitors or ads on the big screens. With the help of handles combined with the housing there are many mounting possibilities - such as: in shops (at the cash register, at the back of monitors for LCD / LED), in factories halls, in the cars which are used for distribute different kind of products, etc., will certainly find application in all kinds of networks trade.

Magazine

Industrial fanless MiniPC IBOX-207 by USB ports can be used to connect multiple devices in the store or warehouse and make them easier to control. Its durable housing is perfectly designed for the harsh conditions prevailing in these areas. Any dust or dirt does not impede him in his work, will work without any problems even in high concentrations of dust and in polluted environments.

Transport and cars

MiniPC IBOX-207 can be used on transport market, in cars, through adapting him to operate with a supply 12V. Mini computer can be used in cars, buses, trams, taxis, trains, and even airplanes. Thanks to its functions is suitable for all vehicles in which the restriction is a small space to mount additional hardware.
