Barcode Scanner

Barcode Reader allows you to read, decode and transfer stored data in barcode to your computer. Thanks to dynamic scanning method and the large range of reading, data collector is capable to carefully collecting data, which helps to increase the rate and efficiency of work. Simplified installation procedure, convenient and intuitive design allow to start scanner work very easy and quickly.

Near Field Communication (NFC)

Its a set of ideas and technology that enables smartphones and other devices to establish radio communication with each other by touching the devices together or bringing them into proximity to a distance of typically 5 cm or less.

NFC

	NFC
Frequency	13.56 MHz
Reading distance	od 1 do 5 cm
Supported standards	ISO 14443

Dust	IP6x (dust)
Water	IPx7 (water)
Drop	5ft./1.5m

IP67 Resistance

IP stands for Ingress Protection and is essentially a rating system developed by the International Electrotechnical Commission or IEC. This system is now being used to classify different degrees of protection against intrusion or immersion. The IP rating is usually followed by two digits. The first indicates the level of dust-resistance, the second water resistance. Dust-resistance levels goes from 0 up to 6 while water resistance goes from 0 to 8.

No special protection	0		0	No waterproofing
Protection from solid objects greater than 50mm in diameter	1		1	Protection from dripping water
Protection from solid objects greater than 50mm in diameter	2		2	Protection from vertically dripping water (tilted up to 15°)
Protection from object not greater than 2,5mm in diameter	3		3	Protection from sprayed water (tilted up to 60°)

When device is equipped with the **WCDMA** module, you need only insert a SIM card in the special slot and you are able instantly connect to the internet. Integrated software allows you to automatically detect and configure connections to mobile networks. Internal **3G**(or **4G**) module in MobiPad MPS8W adjusts automatically to transfer and network coverage. Built-in speaker and microphone allows you to make voice calls.

	The ability to make voice calls

You no longer need to worry about whether you will put your device into a briefcase, backpack or travel bag, the problem disappears when you have MobiPad MPS8W. The device weighs just 270g and its dimensions (156 x 70 x 27mm) allow you to take this device everywhere. Professional performance and energy efficiency makes, that MPS8W is in a group of devices which enjoy great popularity in the market in the industrial segment.

Quick change battery

Friendly design allows for fast replacement of the battery. This is useful when you working in the field with difficult conditions, where there is no additional power sources and the time is very important.

Customized for Your needs

From now We offer possibility to choose keyboard to **MobiPad MPS8W**. Thanks this solution You can customize your device much more to maximize efficiency. Below short description:

» **Standard** - get additional functional buttons and bind them to open installed applications like flashlight, messages or facebook,

» **Alphanumeric** - makes possible to write text by device's keyboard - same like in old generation cell phones,

» **22 buttons** - standard keyboard with 4 navigation buttons and one to block touch screen(operating by navigation buttons).
