MobiPad MT40

IP65

dustproof and waterproof

mobilator

MT40 adopts the combination of platformization and modular function design concept. It not only has intelligent operation platform, but also has modular functions with flexible configuration. So it can satisfy the customized requirements from different customer.

Barcode Scanner

Barcode Reader allows you to read, decode and transfer stored data in barcode to your computer. Thanks to dynamic scanning method and the large range of reading, data collector is capable to carefully collecting data, which helps to increase the rate and efficiency of work. Simplified installation procedure, convenient and intuitive design allow to start scanner work very easy and quickly.

Charging

MobiPad MT40 has the latest solution that eliminates damage to the micro USB port. Damage to the charging port unieruchomiato work effectively in the enterprise. Manufacturer data collectors noticing this problem applied magnetic charge port, which itself clings on contact with dock connector.

SAFE CHARGING, FAST AND COMFORTABLE.

Specially designed tip same themselves attracted to the dock connector. This arrangement precludes damage to the micro USB port, which in many devices after a certain time it is not fit for charging or data transfer.

MT40 weighs only 350g and its dimensions (166 x 74 x 16mm) allow you to take it with them everywhere. With sleek performance and energy efficiency is on the forefront of devices in this segment and enjoys great popularity on the Polish market in the industrial segment.
