Industrial Winmate E430RM4

Category:	UMPC - Ruggedized
Manufacturer:	Winmate
Operating System:	Android 4.2
Brightness:	400nit
Processor:	ARM®Cortex™ Quad Core - A7 1.5Ghz
Memory:	1GB SDRAM
Hard Drive:	4GB eMMC
Touch screen:	Touch Projective CapacitiveMulti-Touch
Durability:	MIL-STD 810G
Drop:	MIL-STD-810G Metod 516.6
Shock:	MIL-STD-810G Metod 516.6
Vibration:	MIL-STD-810G Metod 514.6

Temperature:	Operating temperature: -10°C - 50°C (Bateria) / -20°C - 60°C (AC)Storage temperature: -40°C - 70°C
Humidity:	95% non-condensation
1D barcode scanner (reader):	none (available in other configurations)
2D barcode scanner (reader):	none (available in other configurations)
RFID scanner (reader):	none (available in other configurations)
Other:	Sensors:Light SensorProximity SensorG-sensorDigital Compass
Battery:	3900 mAh Li-Ion (1S2P)5V/1A AdapterUSB Adapter
Working time on battery:	12-15hr (Backlight at 10% duty cycle, default level, idle)
Fast battery replacement ability:	Tak
HotSwap battery:	No
LAN:	-----
WLAN:	Yes - 802.11 a/b/g/n
Bluetooth:	Yes - Bluetooth V3.0+EDR
WAN:	Yes - 3.75G
GPS:	Yes - Built-in
Camera:	Front: 2MpxRear: 8Mpx + LED + Autofocus
In/Out:	1x - Micro USB : 1x - SIM : 1x - Micro SD
Optional accessories:	1D/2D Barcode scannerRFIDCar holderCar chargerOptional warranty up to 3 years
Docking station connector:	No
VESA standard – holders and mounts support:	No
COM port:	No
Magnetic card reader (MSR):	No
Microchip card reader:	No
Contrast:	800:1
Graphics card:	-----
Chipset:	-----

BIOS:	-----
Casing material:	plastic
Flash Card Reader:	microSD (max.32GB)
CD/DVD:	-----
Audio:	Built-in Microphone : Earphone : Speaker 1.2W
Keyboard:	No
Additional Navigation Devices :	Function keys:Volume - +Power buttonFunction button
Color:	black-yellow
Swivel Hinge:	-----
VGA out:	-----
TV Out:	-----
TV Tuner:	-----
Security:	Gum case
Waterproof:	IP 65
Sand and dust:	IP 65
Size:	132.2 x 82 x 25.7 mm260g
Fanless casing:	Yes

Product from the Archive - production finished

Founded in 1996 in Taiwan, the company Winmate achieved an excellent reputation as a manufacturer of industrial LCD displays and laptops. Due to the high position of the products in the high-tech, have won many awards in tests conducted around the world.

- 
- Android 4.2
 - Multiple wireless communication option
 - Support for RFID and 1D/2D Barcode Reader
 - Robust battery
 - Industry and military standards

With its Android 4.2 platform, 1D/2D scanner, RFID reader, dual cameras, sunlight-readable 4.3-inch capacitive touchscreen, and a user-replaceable battery design, the E430RM4 rugged handheld streamlines data collection and operations in any field application.

Specification

Processor	ARM®Cortex™ - A7 Quad Core 1.5Ghz
Display	4.3" (480x800) Capacitive : Multi-touch
RAM	1GB SDRAM
ROM	4GB eMMC
Connectors	Micro USB : SIM : Micro SD (max. 32GB)
Audio	Built-in Microphone : Earphone : Speaker 1.2W
Keys	Volume +- Power Define button Home Menu ESC Search
Battery	3900 mAh Li-Ion (1S2P)
Camera	Front: 2Mpx Rear: 8Mpx + LED
Sensors	Light, Proximity, G-Sensor, Digital Compass
Readers (optional)	RFID HF : 1D : 1D/2D : 1D
Modules	WiFi : Bluetooth V3.0 + EDR : 3G
Operating system	Android 4.2 (multi-language)

Refer to the "Select version for yourself" that possibility is a version of the device. To gain additional information about the product click on the "Ask about the product" or go to the contact form.

Accessory

One difference between consumer devices and those designed for deployment in enterprise and vertical markets that's often overlooked is the availability of supporting accessories and peripherals. For consumer devices, all that's available may be a USB charging cable — definitely not a solution that would work for rugged equipment customers. Winmate knows that and offers not only a dedicated dual battery charger that shows charging level, but also a clever daisy chainable charging dock.

Barcode Scanner (optional)

Unlike consumer smartphones that may be able to scan using their integrated cameras, professional quality devices such as E430RM4 use industrial grade scanners. Depending on the intended use, Winmate offers standard 2D scanner for indoor/outdoor use, or a Motorola 2D scanner with extended symbology support. From retail and healthcare to warehouse and logistics, Winmate E430RM4 with various options of the scan engine can boost productivity and efficiency immediately.

	1D	1D/2D
Model	Opticon MDL-1000	Motorola SE4500
Scanner type	1D (LASER)	1D (LASER) 2D (CMOS)
Codes (1D)	JAN/UPC/EAN incl. add on, Codabar/+NW-7, Code 11, Code 39, Code 93, Code 128, GS1-UPC/EAN, Code 128, Code 39, Code 93, Code 11, 128(EAN-128), GS1 DataBar (RSS), IATA, Industrial 2of5, Interleaved 2of5, ISBN-ISMN-ISSN, Interleaved 2 of 5, Discrete 2 of 5, Codabar, MSI, Chinese 2 Matrix 2of5, MSI/Plessey, S-Code, Telepen, Tri-Optic, UK/PlesseyPostal code: Chinese Post, of 5, Matrix 2 of 5, Korean3 of 5, Postal codes, GS1 Korean Postal Authority	DataBar, Composite
Codes (2D)	no support	QR Code, Data Matrix, PDF417, Maxicode, Aztec

RFID (optional)

RFID technology worldwide has aroused great interest. They are expected to solve the many problems with fast and unmistakable identification of people and equipment. Its development is more turbulent than being gradually implemented barcodes. RFID technology is cheap, reliable and versatile. RFID (Radio-Frequency Identification) is a technology used to identify objects and flow control products. Reading of information from the special tags that are attached to objects (but not only, because RFID is also applicable to the identification of the animals and even humans) followed by radio. Depending on the type of tag changes the amount of information that can hold as well as the maximum distance at which data can be read. RFID tags, is an alternative to bar codes - more comfortable and more efficient.

In addition to standard Bluetooth and Wi-Fi, the E430RM4 handheld offers optional GPS and 3G asset tracking and real-time data transfer. Whether indoor or outdoor, the E430RM4 handheld provides a wide of robust communications options.

Featuring a user replaceable battery design with simple latch system, E430RM4 handheld can support continual operation on the field without down time. The replaceable battery also features high capacity at 3900mAh for extended use.

Standards

Operating temperature	-10°C -- +50°C (Battery) -20°C -- +60°C (AC)
Storage temperature	-30°C -- +70°C
Humidity	95% non-condensation
Dust	IP6x (dust)
Water	IPx6 (water)
Vibration	MIL-STD-810G M514.6
Drop	MIL-STD-810G Method 516.6, 4 ft, Free to concrete
Regulatory	CE, FCC, UL, CCC

Odporność sprzętowa IP65

Sealed to IP65, the E430RM4 handheld is built to withstand harsh environments, protected against water and dust. Compliant with MIL-STD-810G, it can operate in extreme temperatures ranging from -10°C to 60°C and endure shock, vibration and 4-foot drops.

The first digit [x]
Protection against solid objects

Complete protection against contact, Protection from infiltration of dust

6

The second digits [y]
Protection against liquids

5

Protection from water projected from a nozzle
