Product from the Archive - production finished

OVERVIEW

MOBILITY WITH NO COMPROMISE

Its modest dimensions and weight (152x80x21.9mm/320g) make Aigo a highly portable MID that suits any occasion. The thorough study of all the ergonomic aspects, the keyboard dimensions and the position of the main control keys allow a very simple usage – even standing.

TOTAL CONNECTIVITY

Connected everywhere: your Aigo P8880 allows you to stay always connected thanks to its in-built technologies. Voice, data and videos can be transferred and received both wired and wireless using high-speed connections.

CONNECTIVITY

Aigo P8880 integrates the latest communication technologies, wired and wireless.

WIRELESS WAN CONNECTIVITY

(cellular network)

Thanks to the in-built HSDPA module, you need only to insert a SIM card in the special slot, and you will immediately be able to easily connect to the Internet. The integrated software is able to automatically recognise and customise all network providers worldwide. And.

BLUETOOTH CONNECTIVITY

No more cable connections! Thanks to the bluetooth technology that allows the exchange of information among different devices, you can easily use all the accessories of the Aigo line (and more) with an in-built special software.
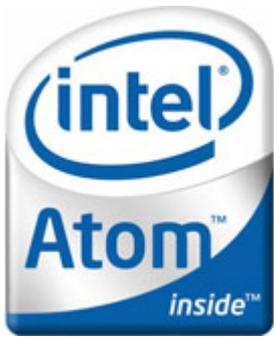

WEBCAM

Whatever the connection used, your 0.3Mpixel webcam will allow you to be seen while videoconferencing, thus reducing distances.

TECHNOLOGY

INTEL® ATOM® PLATFORM

Concentrating Aigo P8880W high performances in small dimensions means solving the problems linked with consumes and heat dissipation. The use of Intel ATOM® processors ensures a perfect combination between solo-core high performance and the highest autonomy due the low-consume processor.

TOUCH SCREEN

Use your Aigo MID"s like a real block notes: thanks to its touch-panel, it allows you to write your notes on the screen as you would do with a normal paper sheet. The stylus pen can be used to easily and quickly access all the Aigo's functions or to add notes to your documents.
