Thanks to the in-built HSDPA module, you need only to insert a SIM card in the special slot, and you will immediately be able to easily connect to the Internet. The integrated software is able to automatically recognise and customise all network providers worldwide. And the study of the antennae localisation allows a receiving capacity unreachable by the external USB or PCMCIA transmission devices. Besides, it allows you to reach the highest connection speeds even in poor network conditions.

**501A** is supported Intel Atom Z510 processor, thanks to what it is unusually energy-saving, keeping near this large efficiency of work, what proof system is Windows XP and Linux which be dedicated for this device.

UMPC **SayCool** is equipped in arrangement chipset Intel US15W which makes possible starting on him many application and the newest game.

With an integrated USB 2.0 interfaces, you can connect all your peripherals and multimedia devices to the mini-v. With integrated Wireless LAN and Bluetooth you can also take advantage of wireless networks and hot spots whilst out and about.

[go top...](#)

The great expansion of WiFi technologies to wireless connect to the Internet both in professional and domestic settings through the public or private hot-spots, make your **501A** an inseparable resource for your daily activities.

No more cable connections! Thanks to the bluetooth technology that allows the exchange of information among different devices, you can easily use all the accessories of the **SayCool** line (and more) with an in-built special software.

Whatever the connection used, your 0.3Mpixel webcam will allow you to be seen while videoconferencing, thus reducing distances.
