MID (UMPC) - 3GNet Mi-12B

Category:	MID (Mobile Internet Device)
Manufacturer:	3GNet
WAN:	Yes
WLAN:	IEEE 802.11 b/g
Bluetooth:	Bluetooth 2.0
Processor:	Intel Atom Z515 (1.2 GHz) (512 KB Cache, 400 MHz)
Memory:	1GB DDR2
Chipset:	Poulsbo US15
Dispaly:	5''TFT (800x480)
Graphics card:	Intel GMA 500 Integrated
Touch screen:	Yes
Swivel Hinge:	No
Hard Drive:	16GB SSD
BIOS:	-----
VGA out:	No
LAN:	No
Camera:	Yes - 0.3Mpx
Audio:	Integrated Realtek HD Audio - 2 Stereo spekers

Seciurity:	No
TV Out:	No
In/Out:	1 x USB 2.0, 1 x MiniUSB, Headphones, Microphone
Keyboard:	Yes (QWERTY)
Additional Navigation Devices :	Touch Screen
Battery:	1850 mAh (Polimer)
Working time on battery:	2.5 hours
Size:	174 x 84 x 26 mm / weight 360 g
CD/DVD:	Nie - (optional yes external drive USB)
Operating System:	No (Optional Microsoft Windows XP/Vista/7)
Flash Card Reader:	Yes - SD
GPS:	No
TV Tuner:	No
Color:	Black
Other:	----

Product from the Archive - production finished

PRIMARY TECHNICAL DATA
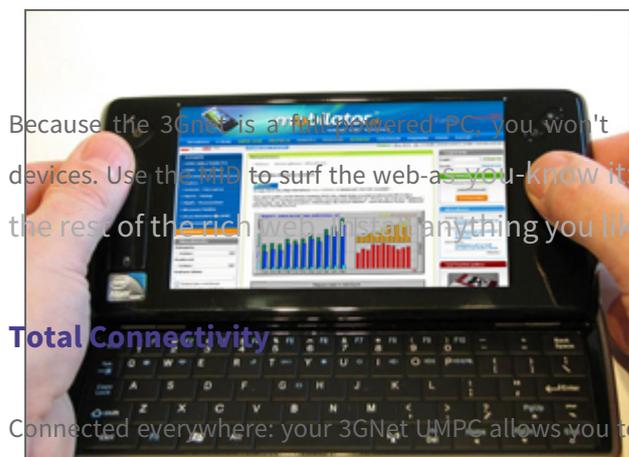

5" TFT Touchscreen resolution 800 x 480

Intel Atom Z515 CPU (1.2GHz)

16GB SSD

1GB RAM DDR2

802.11 b/g WiFi and Bluetooth 2.0

HSDPA

Because the 3GNet is a full-powered PC, you won't have the limitations of other mobile devices. Use the MID to surf the web-as-you-know it; including Flash, HTML5, and all the rest of the rich web. Install anything you like. Pocket it, and go anywhere.

Total Connectivity

Connected everywhere: your 3GNet UMPC allows you to stay always connected thanks to its in-built technologies. Voice, data and videos can be transferred and received wireless using high-speed connections.

Bluetooth

No more cable connections! Thanks to the bluetooth technology that allows the exchange of information among different devices, you can easily use all the accessories of the 3GNet line (and more) with an in-built special software.

Wi-Fi

The great expansion of WiFi technologies to wireless connect to the Internet both in professional and domestic settings through the public or private hot-spots, make your MID an inseparable resource for your daily activities.

HSDPA

go top…

Thanks to the in-built HSDPA module, you need only to insert a SIM card in the special slot, and you will immediately be able to easily connect to the Internet. The integrated software is able to automatically recognise and customise all network providers worldwide. And the study of the antennae localisation allows a receiving capacity unreachable by the external USB or PCMCIA transmission devices. Besides, it allows you to reach the highest connection speeds even in poor network conditions.

Technology

Intel® Atom™

Concentrating 3GNet high performances in small dimensions means solving the problems linked with consumes and heat dissipation. The use of Intel ATOM® processors ensures a perfect combination between solo-core high performance and the highest autonomy due the low-consume processor.

TOUCHSCREEN

Use your 3GNet Mi-12B like a real block notes: thanks to its touch-panel, it allows you to write your notes on the screen as you would do with a normal paper sheet. The stylus pen can be used to easily and quickly access all the MID's functions or to add notes to your documents. Thanks to the Microsoft Windows Vista operative system, it's easier to manage all the info written on the screen: use the tools given by the O.S. and see how they perfectly integrate with 3GNet's technology. Of course, UMPC provides super-intuitive navigation of web pages.

VoIP through built in MIC and Web Cam

Whatever the connection used, your 0.3 Mpixel webcam will allow you to be seen while videoconferencing, thus reducing distances.

Integrated microphone and camera make Skype video-conferencing easy to do almost anywhere. Make videos and upload them to YouTube immediately - even stream live video onto the Web while you're on the go!

Micro SDHC Slot

Using the integrated Micro SDHC slot, you can expand storage capacity on a simple Micro SDHC card.

Multimedia/entertainment experience

Now you can have a full portable media player, without giving up functionality-or all-day usage. With its version of Windows XP™, you can run iTunes™ or any other preferred media player. Easily navigate through your music and movie library with the ease of a fingertip, and be able to download and see your favorite movies or listen to music from iTunes.
