TOTAL CONNECTIVITY

Connected everywhere: your MID 3GNet allows you to stay always connected thanks to its in-built technologies. Data, voice and videos can be transferred and received both wired and wireless.

CONNECTIVITY

WIRELESS WAN CONNECTIVITY

Thanks to the in-built GPRS/GSM module, you need only to insert a SIM card in the special slot, and you will immediately be able to easily connect to the Internet. The integrated software is able to automatically recognise and customise all network providers worldwide. Besides, it allows you to reach connection speeds even in poor network conditions.

WIRELESS LAN CONNECTIVITY

The great expansion of WiFi technologies to wireless connect to the Internet both in professional and domestic settings through the public or private hot-spots, make your UMPC iWatch an inseparable resource for your daily activities.

BLUETOOTH CONNECTIVITY

No more cable connections! Thanks to the bluetooth technology that allows the exchange of information among different devices, you can easily use all the accessories of the UMPC 3GNet line (and more) with an in-built special software.

TOUCH SCREEN

Use your MID 3GNet like a real block notes: thanks to its touch-panel, it allows you to write your notes on the screen as you would do with a normal paper sheet. The stylus pen can be used to easily and quickly access all the 3GNet is functions or to add notes to your documents. Thanks to the Microsoft Windows Vista operative system, it's easier to manage all the info written on the screen: use the tools given by the O.S. and see how they perfectly integrate with 3GNet is technology.

3GNet MI-13 at all times

While you are away on a business trip settled in your hotel room, you no longer need to worry about your connections. UMPC 3GNet will connect you to the wireless network and through the GPRS/GSM system (option) you'll be able to download your e-mails in the comfort of your hotel room's bed. Thanks to its connective technology, MID MI-13 will also allow you to make personal or business phone calls worldwide via the web at no extra cost!

Applications

As you drift away through the sea of entertainment, you'll always have at your service your inseparable number one tool: 3GNet.
