

MID (UMPC) - MobiPad MP60W2 HSDPA

Category:	MID (Mobile Internet Device)
Manufacturer:	Mobilator
WAN:	Yes - WCDMA / CDMA2000 / TD-SCDMA / Built-in Mobile Phone
WLAN:	802.11b/g/n
Bluetooth:	Bluetooth 2.1
Processor:	Intel Atom™ Processor Z530 (512K Cache, 1.60 GHz, 533 MHz FSB)
Memory:	2GB DDR2
Chipset:	Poulsbo Chipset
Display:	6" SVGA TFT (1024 x 768), Multi-Touch
Graphics card:	Intel Graphics Media Accelerator 500
Touch screen:	Yes - Multi-Touch, Capacitive
Swivel Hinge:	No - G-sensor
Hard Drive:	120GB 1.8" HDD SATA II
BIOS:	-----
VGA out:	No - Mini HDMI

LAN:	No
Camera:	2 Mpix
Audio:	Integrated stereo speaker
Seciurity:	Fingerprint reader
TV Out:	Mini HDMI
In/Out:	2xUSB, Mini HDMI, 2x stereo speaker, Microphone Input, output headphone, Micro SD Card reader, SIM slot
Keyboard:	No
Additional Navigation Devices :	Touchpad (back case), Mouse Left and Right Button
Battery:	3500mAh Lithium-Polymner
Working time on battery:	up to 6h
Size:	190 x 127 x 30 mm, weight 900g
CD/DVD:	No - (optional on USB)
Operating System:	Windows 7 Home Prem Starter (optional Windows 7, Linux)
Flash Card Reader:	Yes - Micro SD
GPS:	No (optional Yes Bluetooth or USB)
TV Tuner:	No
Color:	Black / Milk-White / Red
Other:	Fingerprint reader

Product from the Archive - production finished

Compact dimensions (190x127x30mm), Internet access, advanced multimedia communications, make up the elements which are the quintessence of mobile versatility. What's more, everyone can make tablet will be one of a kind, all with access to thousands of Microsoft Windows application.

11. Right mouse button

12. 2x Port USB 2.0

13. Left mouse button

14. Lock switch

15. Air export

16. Image sensor

17. Power On/Off

18. Built-in microphone

19. Camera 2 Mpix

Functionality

[go top...](#)

Multi-touch is an enhancement to touchscreen technology, which provides the user with the ability to apply multiple finger gestures simultaneously onto the electronic visual display to send complex commands to the device.

Multi-touch has been implemented in several different ways, depending on the size and type of interface. Both touchtables and touch walls project an image through acrylic or glass, and then backlight the image with LED's. When a finger or an object touches the surface, causing the light to scatter, the reflection is caught with sensors or cameras that send the data to software which dictates response to the touch, depending on the type of reflection measured. Touch surfaces can also be made pressure-sensitive by the addition of a pressure-sensitive coating that flexes differently depending on how firmly it is pressed, altering the reflection.

Communication

[go top...](#)

 er will put to special slotu the card of SIM and it can immediately join with Internetem. Integrated software automatical recognition and configuration from cellular nets connections. Over this applied in MobiPad MP-60W at internal module HSDPA permit on maintenance the the highest speeds of connections in areas about weaker signal of net even.

 Thanks to the bluetooth technology that allows the exchange of information among different devices, you can easily use all the accessories of the MobiPad line (and more) with an in-built special software.

 The great expansion of WiFi technologies to wireless connect to the Internet both in professional and domestic settings through the public or private hot-spots, make your MobiPad an inseparable resource for your daily activities.

 Web with high resolution and microphone for even easier communication. Built-in webcam and microphone make communication in the network is extremely easy and convenient. Now you can enjoy every moment with family and friends.

 audio / video signal is able to send a full stream of data without compression. HDMI allows you to connect any, is compatible with standard equipment. Due to the presence of the connector in MobiPad MP-60W, it is possible to connect the TV stand, which is equipped with HDMI input. This gives the ability to display photos and movies on the big screen. There also does not preclude the MP-60W to connect to an external monitor.

Summary
