SayCool UMPC is a good solution for mobile people whose value solid quality and effective in work.

M5 is equipped in cable and wireless Internet access module. Built-in Bluetooth, WiFi give the possibility to practically unbounded Internet connections.

SayCool an always-on mode that provides you instant access to critical information including e-mail previews, local weather, calendar, and SMS even if the device is not switched on. Push e-mail gives you instant alerts whenever you have new Outlook® e-mails.

The device offers hardware support for alternative operating systems such as Windows and Linux, as well as full hardware support for Windows 7. The rechargeable battery is 7.4V at 1900 mAh, giving 3 hours of battery life. This is excellent performance considering the high specification of the hardware. The whole device is a fairly compact 160mm x 96mm x 22mm and weighs only 350g.
