[UMID M1 mBook - step for total mobility](#)

Experience - the Ultra Portability with mBook M1, the world's smallest, lightest and most attractive brand new Mobile Internet Device from UMID.

Came equipped with a QWERTY keypad and LCD with Touch Screen.

With its ultra mobile Intel Atom processor and high-capacity Lithium Ion batteries for exceptional battery life of up to 6 hours, the mBook enables you to enjoy a all day long on the go computing lifestyle.

Only weighing in at 315g and fitting in one hand, the M1 will be your TRUE Ultra Portable PC.

Now you can watch movies, listen to music, check your email, edit presentations, take photos and chat with your friends anywhere anytime. Fill your life with much more fun and value!

Full WINDOWS XP PC and Internet functionality

[go top...](#)

You can enjoy fully functional Internet surfing, emailing, presentation, music listening, movie watching and so on. mBook is equipped with an Intel Atom Z510 featuring 1.1 GHz (or 1.3GHz) of processing power. This chip from INTEL provides some of the best power per watt performance in its class and with the INTEL companion chipset is optimized for 2D performance, input output and office tasks. Real life performance is almost 3 times better than similar CPUs and provides far better power characteristics than even the most modern "power saving" notebook CPUs. By running Windows XP Home edition, M1 gives you the most stable and versatile PC performance possible.

Integrated Full Alphabet QWERTY Keypad

Now you can compose emails, make word files, revise presentation and take memos on the go. mBook has more than enough thumbkeys for your usual computing work. With its useful backlit combination function keys, you can finish your work even in cramped quarters.

Truly mobility

Just take it out without worrying about weight, size and other accessories. Weighing just 315g, with dimensions of 158(W) x 94(H) x 18,6(D) and a full keypad, mBook features Truly Ultra Portability with its sleek design.

Anytime Connectivity
