

Minimaker BBPC-K05 (i7-6500U) v.1 -
Powerful modern resistant minipc with
additional cooling (Intel Core i7), 6x COM
RS232 and 2x LAN

Category:	MiniPC Industry
Manufacturer:	Mobilator
Others:	Color Silver
Chipset:	Intel Skylake
CPU Support:	Intel i7
Installed CPU:	Intel® i7 dual Core 6500U, 2.5 GHz
Memory Support:	2xDDR3 SODimm (MAX 16GB)
Installed Memory:	4GB
Graphic Card:	Intel HD Graphics
Storage (HDD) Support:	SSD / HDDmSATA / SATA
Installed Storage (HDD):	32GB SSD
CD/DVD Drive:	-----
LAN:	2x LAN 1000Mbit
Wireless LAN card:	Option
Bluetooth:	Option
3G:	-----
TV Tuner:	-----
Watch Dog Timer:	Yes
Front Panel (ports):	Power On/Off 2x USB 2x LAN HDMI VGA Audio Mic DC IN 12 V

Rear Panel (ports):	4x COM4x USB 2.0
Power:	12V5A
Supported OS:	Microsoft Windows: 7/8/10, Linux
Installed OS:	Linux Ubuntu
Dimensions:	322mm x 210mm x 36.2mm
Weight:	2.200g
Expansion:	-----
Fanless:	Yes
Humidity:	10% ~ 90%
Temp:	-10°C — 50°C
IP Norm:	-----
Storage temperature:	-20°C — 60°C

Product from the Archive - production finished

TECHNICAL SPECIFICATION

RESISTANCE AND DURABILITY

CONNECTIVITY AND COMMUNICATION

DEVICE APPLICATION

AVAILABLE VERSIONS

Small dimensions industrial computers excel in environments where dust, dirt and moisture predominate. They are ideal for applications requiring quiet operation. Small and reliable MiniPC use heat-pipe technology and aluminum fins for passive cooling. The robust mini Industrial Computer Minimaker BBPC-K05 (i7-6500U) is a device designed for all industrial and non-continuous applications requiring continuous operation - 24 hours, 7 days a week.

Small dimensions

The compact housing means that the Mini PC will fit wherever you need it and is easy to carry.

Lightweight design

The computer's weight does not exceed 2.2 kg, so it can be conveniently carried in a bag or backpack.

Efficient components

The Intel i7 6500U dual-core CPU provides improved device performance.

Wireless network*

The mini PC can be connected to nearby wireless networks by equipping it with an optional Wi-Fi module.

Quick start

A modern SSD drive will increase the speed of application programs and ensure quiet computer operation.

Passive cooling

The use of passive cooling in the Mini PC ensures silent operation and slows dust deposition.

* Optional equipment, available only in other versions of the device.

SPECIFICATION

Performance

Processor	Intel DualCore i7 6500U (2,5GHz)
Graphics card	Intel HD Graphics
Operating system	Linux Ubuntu

Performance	
RAM	4GB DDR3 SODimm
Drive	32GB SSD
Interfaces	
Connectivity	Wi-Fi * LAN - 10/100/1000 Mbps
Front panel	Power On/Off / 2x USB 2.0 / 2x Lan / HDMI / VGA / Audio / Mic / DC IN 12 V / 2x COM
Rear panel	4x COM /4x USB 2.0
Other	
Available colors	Silver
Dimensions	322mm x 210mm x 36.2mm
Weight	2.20 kg

* Optional equipment, available only in other versions of the device.

Detailed device specification is available in the "Technical data" tab.

EFFICIENT PROCESSOR

The industrial mini-computer Minimaker BBPC-K05 (i7-6500U) uses an efficient and energy-saving Intel i7 6500U processor. Inside it there are two cooperating cores enabling more efficient processing of many tasks at the same time. The shared cache memory in which the multilevel hierarchy is used is dynamically allocated to each processor core depending on the load. This reduces the average

access time to the main memory.

DIMENSIONS

PASSIVE COOLING

The industrial Mini PC uses a proven cooling system, based only on solid elements, mainly heat sinks. The system uses the phenomenon of metals passing thermal energy into the environment - there are no additional moving elements in the form of eg fans. This solution ensures noiseless operation, lower failure rate and greater protection against dust and other dirt while reducing the amount of energy consumed.

ACTIVE COOLING (OPTION)

In the industrial Mini PC it is possible to purchase additional active cooling. Active cooling enables a much faster reduction of temperatures to lower values than in the case of passive cooling. We recommend buying additional cooling if your computer is loaded

TEMPERATURES

Minimaker BBPC-K05 (i7-6500U) is designed for continuous operation in both very low and high temperatures ranging from -10 ° C to 50 ° C. If the device is switched off, it can already handle temperatures in the range of -20 ° C to 60 ° C.

Work temp.	-10°C — 50°C
Storage temp.	-20°C — 60°C
Humidity	10% — 90%

MECHANICAL DAMAGE

The passive cooling system used in the Minimaker BBPC-K05 (i7-6500U) combined with the non-disk SSD make this computer very resistant to various types of mechanical injuries. An additional advantage of industrial computers is a solid construction made of high quality aluminum and specially designed in such a way that in addition to high efficiency in heat dissipation, it can also resist any external damage.

WIRELESS NETWORK (OPTIONAL)

The dual-band Wi-Fi module provides quick access to the network wherever you can connect to secured or open Wi-Fi networks. This is a convenient solution for people who have a router at home or place of residence and a wireless network that can be used at no extra charge. Industrial Minimaker BBPC-K05 (i7-6500U) has been equipped the standard of - 802.11n, which allows transfer of files at a dizzying speed of up to 300 Mb / s.

WIRED LAN NETWORK

The Minimaker BBPC-K05 (i7-6500U) has built-in one Intel network adapter that can work in a fast gigabit Ethernet network.

APPLICATIONS

TRADE AND SERVICES

Wide range of applications:

Mini PC is an ideal tool to support us in the implementation of many activities in the field of trade, small dimensions increase the possibility of its adaptation to

activities such as issuing invoices or preparing documentation, which in turn allows us to convenient and optimal sales management. The VESA holder mounted to the housing provides many installation options, eg in stores (at the cash register, under the desktop, behind the LCD / LED monitor), in factory halls or in a delivery truck.

WAREHOUSE AND LOGISTICS

Thanks high performance an industrial computer can be used to connect multiple devices in a warehouse and make their management much easier. Its rugged casing and the fanless cooling system are ideal for harsh environments in such rooms. The solid construction guarantees long-lasting work, even in environments with high dustiness and dirt.

TRANSPORT AND MOTORIZATION

A small industrial computer can be used in transport thanks to the ability to work on 12V power supply. Then the mini computer can be used in passenger cars, buses, trams, taxis, trains and even in airplanes. It allows you to inform the driver about the current state of the vehicle, transfer its current location to the management center, display information for passengers, etc. It performs well in vehicles where small dimensions are important.

More pictures of the device available in the "Gallery" tab.

VERSIONS

The industrial mini-computer Minimaker BBPC-K05 (i7-6500U) is offered in several versions to suit different needs. By clicking on the number of the hardware configuration you will be redirected to the product with the parameters given in the table below. In addition, it is possible to create a configuration that is currently unavailable on the customer's request.

	v.1	v.2	v.3	v.4	v.5	v.6	v.7	v.8	v.9	v.10
