## Description

- » Stability
- » Easy to use
- » Compatible with MobiPad T1300U/R-2/R-2-H/A8/A8-H

The docking station designed for MobiPad T1300U waterproof industrial tablet allows for efficient charging of the battery placed in the dustproof tablet. Additional connectors built into the docking station enable connection of tablet to a network via an RJ45 connector and to various accessories (peripherals) via two USB ports. An additional RS232 technical connector is also available. Thanks to the dock construction, both the insertion and extraction of the tablet are performed with a single motion, significantly facilitates everyday work in the office or at workstation. The station was specifically designed for service, technical and industrial applications.
