MobiPad Tex101 - vehicle charging hose bracket
(long flexible stem) with power cable (low

voltage version)

The MobiPad Tex101 special car holder for tablets allows for stable and comfortable use of the device in various vehicles, such as cars, construction machinery, forklifts, boats, yachts, and military equipment. Made of durable ABS+PC plastic, the holder guarantees safety and longevity. Thanks to the built-in 3.5-meter power cable, the tablet can be continuously charged while in use, and its positioning is flexible. Additionally, the holder is VESA-compliant, ensuring broad compatibility with other mounting systems.
