

MoGo - X54 Pro (sil) - presentation

Category:	Accessories - mobile
Manufacturer:	MoGo

Product from the Archive - production finished

MoGo Presenter Mouse X54™ is a combined wireless presenter and mouse that stores and charges inside your laptop's ExpressCard/54 slot – a “must have” for every laptop. The sleek design and size make it ideal for business travelers. It includes the same functionality as conventional laser wireless mice – scroll, right click, left click – without the bulky, oversized design. With the push of a button, your MoGo Presenter Mouse X54™ turns into a wireless presenter – allowing you to control your PowerPoint presentations with 30 feet of freedom. It features a slide changer, start/escape button and laser pointer. MoGo Presenter Mouse X54™ is compatible with laptop's that are equipped with PCI Express slots, or Express Card 54 Slot.

Normal Battery Life, 8-10 Hours on Charge, Charge Time: 30 minutes

Presenter Mode

With the simple push of a button, MoGo Presenter Mouse X54™ transforms itself from a mouse to a wireless presentation tool. Complete with a slide changer (forward and backward), a start/escape button and a laser pointer you can use to highlight important elements of your presentation. And since MoGo Presenter Mouse X54™ stores and automatically charges in your laptop, it's the perfect ally for back-to-back meetings.

There has never been a mouse quite like MoGo Media Mouse X54™. Sleek and comfortable, it allows the same functionality as conventional laser wireless mice – scroll, right click, left click – but without the cumbersome design that makes other mice difficult to take on the road. MoGo Media Mouse X54™ is built with an easy on/off switch and a
