A NEW LEVEL OF INTELLIGENT PERFORMANCE i7

With intelligent performance that accelerates in response to demanding tasks, such as playing games and editing photos, the Intel® Core™ i7 second generation processor moves faster when you do.

The Intel Core i7 processor automatically allocates processing power where it's needed most. Whether you're creating HD video, composing digital music, editing photos, or playing the coolest PC games—with the Intel Core i7 processor you can multitask with ease and be more productive than ever.

Breath-taking graphics generated by a state-of-the-art engine come alive only when displayed in stunning full. The **P170HM 3D** 17.3" full 1080p **FHD** widescreen with **LED** display technology delivers the most brilliant color and contrasts that will dazzle your eye whether you're watching a Blu-ray movie or playing a game.

NVIDIA GeForce GTX & NVIDIA CUDA

Words cannot adequately describe the stunning visuals provided by the P170HM's immense graphics power. With two of the world's fastest notebook GPUs in a single system it delivers double the gaming horsepower with incredible scalability. The Style Note takes gaming performance to extreme levels and delivers breathtaking frame rates to create the ultimate visual experience. NVIDIA SLI Technology not only boosts the P170HM's graphics performance, it also enhances the physical gaming interaction for more dynamic and realistic experience with NVIDIA physX technology. And, NVIDIA CUDA technology unlocks the power of the GPU's processor cores to accelerate the performance for even the most demanding system tasks such as video transcoding. The P170HM lets you play games the way they're meant to be played without having to worry if your video card is up to the task.
