

Notebook - Style Note Clevo W130HU v.3

|                       |                                                     |
|-----------------------|-----------------------------------------------------|
| <b>Category:</b>      | CLEVO Powerful Notebooks                            |
| <b>Manufacturer:</b>  | Clevo                                               |
| <b>WAN:</b>           | Yes - HSPA, UMTS                                    |
| <b>WLAN:</b>          | Yes - 802.11 b/g/n                                  |
| <b>Bluetooth:</b>     | Yes - 3.0                                           |
| <b>Processor:</b>     | Intel®Core™ i5-2540M Processor (3M Cache, 2.50 GHz) |
| <b>Memory:</b>        | SO-DIM DDR3 4GB 1333MHz                             |
| <b>Chipset:</b>       | Mobile Intel®HM65 Express Chipset                   |
| <b>Display:</b>       | 13.3" (33.78cm) HD (1366x768) 16:9                  |
| <b>Graphics card:</b> | Intel®HD Graphics 3000 (up to 1.7GB DDR3)           |
| <b>Touch screen:</b>  | No                                                  |
| <b>Swivel Hinge:</b>  | No                                                  |
| <b>Hard Drive:</b>    | 1TB SATA 2.5" HDD (Optional SSD)                    |
| <b>BIOS:</b>          | -----                                               |
| <b>VGA out:</b>       | Yes                                                 |

|                                        |                                                                                                                         |
|----------------------------------------|-------------------------------------------------------------------------------------------------------------------------|
| <b>LAN:</b>                            | Yes - 10/100/1000Mb                                                                                                     |
| <b>Camera:</b>                         | Yes - 1.3Mpx                                                                                                            |
| <b>Audio:</b>                          | Yes - High Definition Audio                                                                                             |
| <b>Seciurity:</b>                      | Yes - Kensington® Lock, Finger print, TPM                                                                               |
| <b>TV Out:</b>                         | Yes - HDMI                                                                                                              |
| <b>In/Out:</b>                         | 2x USB 3.0, 2x USB 2.0, 1x eSATA, 1x VGA, 1x HDMI, 1x Headphone jack, 1x Microphone jack, 1x RJ-45 (LAN), 1x DC-in jack |
| <b>Keyboard:</b>                       | QWERTY                                                                                                                  |
| <b>Additional Navigation Devices :</b> | Yes - Touchpad                                                                                                          |
| <b>Battery:</b>                        | Lithium-Ion, 62.16WH                                                                                                    |
| <b>Working time on battery:</b>        | up to 6h                                                                                                                |
| <b>Size:</b>                           | 330(W) x 255(D) x 24.5~32(H)mm, weight: 1.78kg                                                                          |
| <b>CD/DVD:</b>                         | No - (Optional on USB)                                                                                                  |
| <b>Operating System:</b>               | No - (Optional Windows 7)                                                                                               |
| <b>Flash Card Reader:</b>              | Yes - MMC / RSMC / SD / Mini SD / SDHC / SDXC / MS / MS Pro / MS Duo                                                    |
| <b>GPS:</b>                            | No                                                                                                                      |
| <b>TV Tuner:</b>                       | No                                                                                                                      |
| <b>Color:</b>                          | Black                                                                                                                   |
| <b>Other:</b>                          | Warranty 2 years (6 months battery, 12 months display)                                                                  |

**Product from the Archive - production finished**

Founded in 1983, CLEVO has achieved a fine reputation as a developer and manufacturer of notebook computers. Due to our product positioning in the high-tech and niche market, we have won many honors in computer product evaluation conducted throughout the world.

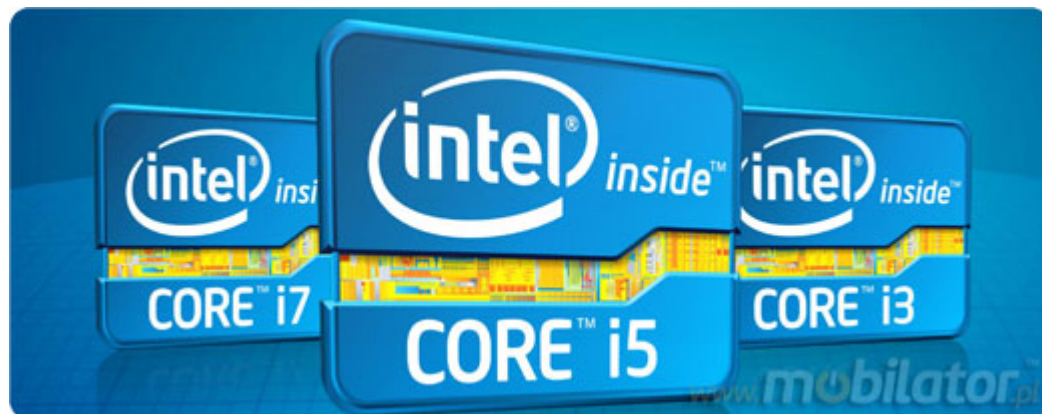

#### MOBILITY WITHOUT COMPROMISE

**"This is a book. No, this is a laptop! Get rid of the uniform design and bring out your identity. Powered by Intel Atom processor and built-in (Optional) 3.75G (HSPA) solution for 3G communication. It's your ideal partner on-the-go!"**

#### TOTAL CONNECT

Always and in every place connected: Notebook W130HU permit to staying in solid connect thanks to built-in technology. Voice, data and videos can be send and received on both ways: line and wireless from utilization give high effective of connections about large transfer. Pose built-in modules WWAN (Optional), Bluetooth and lan - across USB port plug WiFi module (in set)

## HIGHEST TECHNOLOGY

One of the most effective mobile Intel processors, small waste assures autonomically additional components, his equipment and varied options act small unequalled advanced W130HU technologically. Among equipment, using with last technologies, in mighty netbook to exchange: the module the HSDPA (Optional), possibility of use of SSD discs (Optional).

## CONNECTS SYSTEMS

[go top...](#)

CLEVO integrates in one's devices - telecommunicational technologies, line and wireless.

Thanks to the in-built (option) HSDPA module, you need only to insert a SIM card in the special slot and you will immediately be able to easily connect to the Internet. The integrated software is able to automatically recognise and customise all network providers worldwide. And the study of the antennae localisation allows a receiving capacity unreachable by the external USB or PCMCIA transmission devices. Besides, it allows you to reach the highest connection speeds even in poor network conditions.

## WIRELESS LAN CONNECTIVITY

Thanks to the in-built (option) WiFi module, you can easily connect to the Internet both in professional and domestic settings through the public or private hot-spots, make your CLEVO W130HU an inseparable resource for your daily activities.

## BLUETOOTH CONNECTIVITY

No need for additional accessories. Thanks to the in-built (option) Bluetooth technology that allows the exchange of information among different devices, you can easily use all the accessories of the CLEVO line (and more) with an in-built special software.

**CERTIFIED®**  
**Bluetooth**

Technology Flash SSD (Solid State Disc). This means that it has no moving parts and only the same electronics. A 2 times faster reads and writes data in relation to standard disks 2,5" HDD.

#### CABLE CONNECTIVITY (LAN)

Equipped with the 10/100/1000Mbps LAN technology, your CLEVO reaches the top of all performances when it comes to LAN networks. By inserting the Ethernet cable, the system immediately recognises the specific connection used and allows you to transfer data at extremely high speeds.

#### WEBCAM

Whatever the connection used, your 1.3Mpixel webcam will allow you to be seen while videoconferencing, thus reducing distances.

The CLEVO W130HU is now equipped with the latest USB 3.0 technology that can deliver transfer speed up to 10 times faster than USB 2.0 native support.

## Protection

Function Fingerprint security permit on protection of computer with imprint of our finger. This possible is thanks to use of small the skaneta of papillary lines. Solutions of this kind are very effective near protecting including devices important / secret data and permit also on easy and quick log in to system. The pamietania thanks to use this kind of protection does not one need set any Logs or Passwords of access
