Downs - resistant industrial tablet Emdoor I88H is a new 8 inch tablet that works with Windows 10 Home or Professional. The tablet has a specially designed, reinforced construction, adapted to work in harsh environmental conditions, such as in production halls where there is a lot of dust. The machine is ideally suited not only for typical industrial conditions but also for wide application in normal home environments.

- Description

# EMDOOR I88H

The **EMDOOR I88H** industrial tablet is powered by the latest **Intel® Atom™ Z8350/Z8300** quad-core processor, which delivers superior performance, low power consumption and long battery life. The processor makes the device run very smoothly and without problems it is done in everyday work. The tablet works with the Windows® 10 operating system to meet the growing demands of industrial and more.

→ Resistance and strength

## The standard of resistance, that is the strength of the tablet

EMDOOR I88H is designed for use in a variety of environments. Resistance to shocks, vibrations, falls and work over a wide temperature range makes the tablet able to be used in both industrial and military environments. IP67 is fully water and dust resistant. The enclosure can be cleaned with water to reduce the spread of infection. for medical use.

### MIL-STD-810G

Robustness is one of the most important factors to consider when choosing a mobile solution, so EMDOOR ensures that its fully durable devices work even after falling to concrete or used in harsh environmental conditions such as heat and cold, dust and rain. The rigorous testing that passes the EMDOOR products ensures that our customers receive products that meet the highest standards of durability and reliability. EMDOOR guarantees compliance with the most stringent standard in the field - **MIL-STD 810G** according to which its products are tested. This standard, established by the US military, is the most widely used international standard.

New Portable Devices | NIP: 872-120-56-82 | Mobile.: +48 508 235 505 | e-mail: sklep@mobilator.pl

**MIL-STD 810G** covers a wide range of tests used to measure equipment reliability:

Light temperature: MIL-STD-810G Method 501.5

# Wi-Fi Bluetooth

# 3G 4G GPS

With the **3G module** it is enough (**4G LTE - optional**) that the user inserts the SIM card into a special slot and can immediately connect to the Internet. Integrated software allows you to automatically recognize and configure connections to mobile networks. In addition, the internal 3G module adapts automatically to the transfer and network coverage. Built-in speaker and microphone for voice calls.

WIFI	802.11 a/b/g/n
