

Rugged Tablet Winmate R10188M v.3

Category:	UMPC - Ruggedized
Manufacturer:	Winmate
Operating System:	Windows XP Eng Embedded
Display:	10.4" (800x600)
Brightness:	350nit
Processor:	Intel® Core 2 Duo U7500 1.06GHZ
Memory:	1GB DDRII
Hard Drive:	2.5" 160GB HDD or 16GB SSD
Touch screen:	Yes
Durability:	MIL-810F / Full Rugged
Drop:	MIL-STD 810F Method 516.5 / 1.20m
Shock:	MIL-STD 810F Method 516.5
Vibration:	MIL-STD 810F Method 514.5
Temperature:	-20 °C ~ 60 °C
Humidity:	10 - 90%

1D barcode scanner (reader):	No
2D barcode scanner (reader):	No
RFID scanner (reader):	No
Other:	Fanless / Standard VESA
Battery:	6 cell 5200mAh Li-Ion
Working time on battery:	3.5h
Fast battery replacement ability:	Yes
HotSwap battery:	No
LAN:	Yes 10/100/1000 LAN
WLAN:	Yes b/g/n
Bluetooth:	Yes Bluetooth 2.1+EDR
WAN:	Yes
GPS:	Tak
Camera:	No
In/Out:	2 x USB 2.0, 1 x Line in, 1 x Line out, 1 x Reset button, 1 x power jack, 1 x LAN, 1 x VGA, 1 x SD card slot, 1 x SIM card slot, 1 x COM port
Optional accessories:	Car AC, Docking Station, Vehicle Mount Kit VESA, Vehicle Mount Kit, Carrying Handle, Shoulder Handle, Carry Bag, Car Mounting
Docking station connector:	Yes
VESA standard – holders and mounts support:	Yes
COM port:	Yes
Magnetic card reader (MSR):	No
Microchip card reader:	No
Contrast:	500:1
Graphics card:	Integrated
Chipset:	Intel® 945GME
BIOS:	AMI 4Mbit Flash
Casing material:	aluminium - magnesium

Flash Card Reader:	Yes SD
CD/DVD:	No (optional USB
Audio:	2 Speakers stereo
Keyboard:	No
Additional Navigation Devices :	No
Color:	Graphit
Swivel Hinge:	No
VGA out:	Yes
TV Out:	No
TV Tuner:	No
Security:	Gum corner
Waterproof:	IP 54
Sand and dust:	IP 54
Size:	311 x 232 x 45 mm / 2.5 Kg / VESA
Fanless casing:	No

Description

Functionality

Use

Resistance standard

Certificate

Founded in 1996, **Winmate** has achieved a fine reputation as a developer and manufacturer of rugged computers and industry panel LCD. Due to our product positioning in the high-tech and niche market, we have won many honors in computer product evaluation conducted throughout the world.

Winmate PCs are an ideal gadget for mobile professionals. They enable you to take notes quickly and work in close spaces. Rugged Tablet PCs provide even more benefits for mobile professionals. **R10I** is fully rugged and is certified for both military and industrial ruggedization standards.

Description

Guarantee

Winmate corporation give 2 years standard guarantee.
Optional possibility 1 year or 3 years.

Case and size

Integrated GPS solution, GSM/GPRS/EDGE/3G/HSDPA, LCD (touchscreen and digitizer). In addition, IP54 certified design with a full aluminium-magnesium alloy case, helps to ensure that the **R10I** will stand up to the most rigorous environments.

Communications

Winmate**R10I** supports the state of art wireless network feature. It basically supports the wireless LAN 802.11 b/g/n, Bluetooth has built-in option 3G HSDPA module and GPS solution. The great expansion of WiFi technologies to wireless connect to the Internet both in professional and domestic settings through the public or private hot-spots, make your **R10I** an inseparable resource for your daily activities. You can enjoy the use of various wireless networks and wireless Internet to your heart's content with UMPC **R10I** at any time and place where the wireless Internet environment is established.

Processor and chipset

R10I is supported Intel Core 2 Duo 1.06GHz processor, thanks to what it is unusually energy-saving, keeping near this large efficiency of work, what proof system is Windows XP / 7 which be dedicated for this device.

Screen

R10I ships standard with a transfective sunlight viewable 10.4" LED 800x600 screen, ideal for high ambient light conditions standard 350nits, contrast 500:1. A built-in touch screen allows finger-touch inputs directly on the screen or the use of the stylus pen for data input capability.

Function Hot-Swap:

Everyone wants as much processing speed as possible, especially in mobile units. The battery life of our Rugged Tablet PC has been extended by our new function to change the second battery without shutting down your system. We believe it will bring immense benefits and reliability in your mobile application.

The Hot-swap second battery is secured by two large Philips screws ensuring the battery will never loosen. It has Li-Ion 2600 mAh which supports half the operating time of the main battery.

Option accessories

Winmate delivers our all new Ruggedized Tablet products with two kind of series: one is Rugged Mobile PC Series for a Panel PC with battery charging solution, other series is Rugged Tablet PC Series with totally portable design with hot-swap battery for outdoor use.

Car AC

Docking Station

Vehicle Mount Kit VESA

Vehicle Mount Kit

Carrying Handle

Shoulder Handle

Carry Bag

Car holder

Functionality

Ergonomics:

- Designed with about customer.
- Comfortable strong handle be irreplaceable in transportation.

Mobility:

- WiFi 802.11b/g/n,
- Bluetooth,
- GSM/GPRS/CDMA/UMTS/EDGE,
- GPS.

Software:

- Programmable function HotKey buttons.
- Programmable application HotTab SW
- Support: Windows XP, 7

Cooling:

- Fanless.

Durability:

- Full Rugged aluminium-magnesium alloy case.

Screen:

- 10.4" LED 800x600 touch screen, ideal for high ambient light conditions standard 350nits, contrast 500:1

Use

The **R101**, rugged tablet is ideal solution for Government; industrial/commercial customers who are interested in the ability to work in rough environments yet maintain productivity without the risk of data or performance losses.

Bluetooth Class B up to 100m CANBUS

Sunlight Readable
IP54 Water and Dust Proof

Vehicle Examination

Outdoor Application

Military

Complies with
MIL 810F Standard

Logistics

Resistance standard

The following is a top-level introduction to US Military standard **MIL-STD-810**, used to define the testing methodology for, and results required for acceptance of, rugged equipment.

MIL-STD-810 is a series of performance and manufacturing guidelines set by the US Department of Defense for military and commercial equipment and applications. These guidelines specify allowable parts and environmental condition ranges in which a device must be able to operate to meet compliance.

MIL-STD-810 is a generally accepted standard of ruggedisation testing and compliance for mobile computers and equipment.

The MIL-STD-810 test method is used to generate confidence in the environmental worthiness and overall durability of 'material system' design. The testing process follows guidelines, which include program documentation, program roles, test standards, and laboratory test method guidelines for all categories.

The laboratory test methods are broken down into 24 categories and thereafter procedures (specific tests or levels) appropriate to the environment in which the equipment is expected to be used. The compliance test categories are shown overleaf.

MIL-STD 461E

Requirements for the Control of Electromagnetic Interference Characteristics of Subsystems and Equipment.

Vibration: MIL-STD 810F Metod 514.5

Shock: MIL-STD 810F Metod 516.5

CE **FC** **Class B**

Dictionary:

Nit - 1Nit = 1Candela - The candela is the luminous intensity, in a given direction, of a source that emits monochromatic radiation of frequency 540×10^{12} hertz and that has a radiant intensity in that direction of $1/683$ watt per steradian. The definition describes how to produce a light source that (by definition) emits one candela. Such a source could then be used to calibrate instruments designed to measure luminous intensity.

The candela is sometimes still called by the old name candle, such as in foot-candle and the modern definition of candlepower.
