Product from the Archive - production finished

8-megapixel camera with **autofocus** and **LED flash** feature - is ideal for shooting in low light conditions. Are you at a party, on vacation or just for a walk, you'll be able to get the perfect picture, regardless of the weather. Photos and movies are made with the highest quality **High Definition**.

0.3 megapixel

front camera allows for closer contact with your friends by being able to conduct video calls. Through the use of **Skype** or the built-in video chat free way we can see your loved ones in your phone.
