Product from the Archive - production finished

The EKing I1 takes the Ultra-Mobile platform to an even smaller size - with a 4.8-inch WSVGA touch screen at a resolution of 1024 x 600 pixels! The screen is very clear and ultra-responsive - you can input text using an integrated QWERTY keyboard whilst holding the device in both hands. It also has a touch-pad for moving the mouse cursor, or you can use the included stylus directly on the screen.

The new I1 comes with integrated support for 3.5G HSDPA high speed data. i1, like the B1 features QWERTY and a touchpad.

The EKing I1 supports (optionally) 3G/HSDPA, quad-band GSM network, WiFi 802.11b/g as well as Mobile WiMax connectivity. It features also Bluetooth and an integrated webcam. The B1 runs the Windows XP Home OS.
