Kohjinsha SX integrates communication technologies, wired and wireless.

Using Intel ® SX ... Kohjinsha SX ... ... office. Given the built-in VGA port, LAN 10/100 network card and USB 2.0 - you can connect to mini-v many multimedia and office equipment (printer, mouse, keyboard, scanner, a set of external speaker, headphones, pen driver, etc.). Integrated card Wireless LAN (WiFi) and a built-in Bluetooth module * allows you to connect with the Internet through your wireless network or hot spot - anywhere in the world.

WEBCAM

Whatever the connection used, your 2.0 Mpixel webcam will allow you to be seen while videoconferencing, thus reducing distances.

TOUCH SCREEN

Use your Netbook Kohjinsha SX like a real block notes: thanks to its touch-panel, it allows you to write your notes on the screen as you would do with a normal paper sheet. The stylus pen can be used to easily and quickly access all the Vye"s functions or to add notes to your documents. Thanks to the Microsoft Windows Vista operative system, it's easier to manage all the info written on the screen: use the tools given by the O.S. and see how they perfectly integrate with Vye"s technology.
