⊞ The Freedom to Watch go top…

- 10" Wide LCD Display

The U100 has selected a 10" wide LCD display as oppose to the typical smaller sizes to provide better comfort while viewing or reading. In addition, the 1024x 600 resolution can relief concerns of the full display of WebPages while browsing, giving you the freedom when exploring the internet.

10 inch 1024x 600 Resolution Screen
Total Display of Webpage

7 inch 800x 480 Resolution Screen
Unable to Display the Webpage Effectively

- The Latest in LED Power-Saving Backlight Technology

The U100 is embedded with the LED power-saving backlight technology in providing better color fullness and brightness, elevating the total quality of imagery. Furthermore, the lower usage of power can offer a longer operating time.

LED Power-Saving
Backlight Technology

Typical LCD Panel

- Convenient Magnifying Capability

The U100 is equipped with the capability of magnifying text within software, so you may magnify any of the words displayed on the monitor freely, making it easier when you are viewing photos, editing or reading documents.

Magnifying Capbility

⊞ The Freedom to Operate

- Ergonomic Big-Size Keyboard and Touch Pad

MSI has the same persistence for proper ergonomically design even on the keyboards of our smaller notebook computers. The keyboard of the U100 not only has great texture, it also increased the space between the keys to 17.5mm, allowing you to be as comfortable as you can. Plus, ingeniously designed spacebar and touchpad, so your fingers can move smoothly while avoiding strain.

Big Size Keyboard

⊞ The Freedom to Play go top…

- The Excitement of Instant Communication

Equipped with high resolution webcam, high-performance 2 channel stereo speakers, and microphone, all fitted perfectly within the framework design, expressing the slickness of technology and the elegance of modern fashion. Web-chats can be broadcasted instantly not missing one exciting moment. The photos taken is very sharp in resolution and brilliant in colors, capturing precise imagery both indoor or out, adding more fun to instant messaging.

⊞ **Operating System SUSE Linux Enterprise Desktop 10 SP1**

⊞ The Freedom to Go go top…

- Lightness in Design

The frame is approximately 26 centimeters in length and 18 centimeters in width. It is only 19-31.5 mm in thickness making it extremely thin. The total weight added with the battery is not more than 1 kilogram, making the U100 very ideal for taking it on the go.

- Wireless Internet Connection

The U100 has the 802.11b / g / n wireless all region internet connection and Bluetooth transmission interface, so you can enjoy the convenience of accessing the internet at home or out. There will be absolutely no obstacles getting around your daily life

- Comprehensive Multi-Media Application Interface

U100 offers a complete entertainment interface, which includes the 4 in 1 Card Reader (applicable to SD. MMC, MS, and MS Pro), so it may meet the standards of the mainstream memory cards, making it easy to upload digital files into the notebook computer. Our focus was on the common products in the market, such as PDA's, digital cameras, digital video cameras, digital MP3 Players, Global GPS Systems and such, also connecting to the U100 through USB 2.0 Port. An external DVD burner may be added (optional) to play and burn important files at will.

- Long Lasting Battery Life

The last battery life can escalate the mobility and the productiveness of the U100, which can also make your daily lives much more convenient.
