Product from the Archive - production finished

Design-Concept

The NoahPad is one of the most innovative UMPC. Noahpad UMPC is designed specifically with the modern day computer users in mind. As technologies continue to advance and the spheres of our activities continue to expand, individuals are connected to one another more closely than ever before. However, unconsciously, people are increasingly chained to their desks as they enjoy the convenience of managing all aspects of lives through computers. In light of this, Noahpad UMPC endeavors to bring computer users the benefits of the modern day technologies without compromising on individual freedom. Noahpad UMPC offers a compact and user-centered design so that it may be carried anywhere and used in a position that the users are most comfortable with. It is the ultimate balance between utility and sleekness.

Classmate [go top...](#)

Small size and light weight to fit school bag. Over 10 hours of battery life. 30 GB HDD and SD slot provide big storage. Built in WiFi and Bluetooth and external 3.5G to get necessary knowledge everywhere. Microphone for recording in classroom and speaks for playback. More than 50 function keys, most of the functions can be activated by a single pres.

Roommate

Double operation modes for any comfortable position. Or, to fold down the panel into palmtop mode. Mini sizes with 7" screen to display big 10" windows. Good to carry outside with compact size, long using time and large storage. Easy for palmtop use with shoulder strap holding the weight.

Multi-Functionality [go top...](#)

Innovative Keyboard

...ently the most convenient form of cursor controllers, but it suffers from the disadvantage of poor portability. As a result, notebook computers adopted touchpad instead. Traditional touchpad, however, is not easy to use. On one hand, its limited space requires users to frequently move their fingers back and forth. On the other hand, as touchpad is usually located under the keyboard in laptop computers, it often interferes with typing. To address these shortcomings, Noahpad P... keyboard and a
