Experience the Ultra Portability with EVERUN, the world's smallest, lightest and most attractive brand new Ultra Portable PC from Raon Digital.

Came equipped with a QWERTY keypad built in and an auto rotating 4.8" Wide VGA LCD with 800 x 480 native resolution.

With its ultra power saving AMD Geode processor and high-capacity Lithium Ion batteries for exceptional battery life of up to 12 hours, the EVERUN enables you to enjoy a all day long on the go computing lifestyle.

Only weighing in at 460g and fitting in one hand, the EVERUN will be your TRUE Ultra Portable PC.

Now you can watch movies, listen to music, check your mail, edit presentations, take photos and chat with your friends anywhere anytime. Fill your life with much more fun and value!

Full WINDOWS XP PC and Internet functionality [go top...](#)

You can enjoy fully functional Internet surfing, emailing, presentation, music listening, movie watching and so on. EVERUN is equipped with an AMD Geode LX900 featuring 600 MHz of processing power. This chip from AMD provides some of the best power per watt performance in its class and with the AMD companion chipset is optimized for 2D performance, input output and office tasks. Real life performance is almost 3 times better than similar CPUs and provides far better power characteristics than even the most modern "power saving" notebook CPUs. By running Windows XP Home edition, EVERUN gives you the most stable and versatile PC performance possible.

Integrated Full Alphabet QWERTY Keypad

Now you can compose emails, make word files, revise presentation and take memos on the go. EVERUN has more than enough thumbkeys for your usual computing work. With its useful backlit combination function keys, you can finish your work even in cramped quarters. EVERUN boasts its adoption of an optical touch mouse for the first time in the PC industry which allows for greater ease and accessibility for you. You can find all the function keys you may expect from desktop or notebook PCs: scroll, zooming, arrow, page up/down and so on. Even the arrow key buttons function as a joy pad so that game enthusiasts can enjoy their hobby anywhere.

Just take it out without worrying about weight, size and other accessories. Weighing just 460g, with dimensions of 170(W) x 83(H) x 25(D) and a full keypad, EVERUN features Truly Ultra Portability with its sleek design.

Longest Battery Life

With Raon Digital's advanced power saving technology, EVERUN provides incredible battery life as much (as 7 hours with its standard battery). Add 100g more for a large battery, and it lasts for 12 hours. This is the longest battery life available on any PC anywhere, and EVERUN is the first real one-charge-a-day computer.

Anytime Connectivity [go top...](#)

EVERUN adopts advanced wireless technology such as HSDPA, WIMAX (802.16e Wibro), WiFi and Bluetooth. With wireless technology integrated, you can use the Internet and office tools on the go. Be connected via email, IM, chat or VoIP always.
