**Product from the Archive - production finished**

Weighing 990g and small enough to fit in a handbag, school bag or briefcase, the mini-v is the world's most practical mini notebook computer designed to offer everything that a notebook can. The mini-v has the benefit of having a full qwerty keyboard and full notebook functionality. The mini-v combines your notebook, desktop, PDA and MP3 Player, whilst remaining the size of an organiser.

The mini-v mini-notebook from Vye Computers offers great performance in a stylish silver and black or black design. With its 7-inch widescreen display, this mini-notebook offers outstanding visual handling, enabling you to operate full Microsoft Office applications, watch films or view pictures of your last holiday.

The mini-v comes preloaded with Microsoft XP and can act as a Phone, Notebook, MP3, Player and PMP (Portable Movie Player) as it has been fully tested with iTunes, DivX, and Skype.

Using AMD Geode technology and configurations that will include AMD Geode LX800, the mini-v is a compact notebook computer that's capable of acting as your office PC. With an integrated VGA port, 10/100 LAN and 2 USB 2.0 interfaces, you can connect all your desktop peripherals and multimedia devices to the mini-v. With integrated Wireless LAN and built-in Bluetooth you can also take advantage of wireless networks and hot spots whilst out and about.

All in all, the mini-v is a stylish and elegant ultra-portable notebook that can handle all your work and entertainment needs.
