Product from the Archive - production finished

The world's first real mini-notebook Weighing 993g and small enough to fit in a school bag, handbag or briefcase, the mini-v is the world's most practical mini notebook computer designed to offer everything that a notebook can.

The mini-v has the benefit of having an easy to use Qwerty keyboard, with real keys and full notebook functionality. The mini-v combines your conventional notebook, desktop, PDA, MP3 and MP4 Player, whilst being not much bigger than a paperback book.

The mini-v S37 mini-notebook from Vye Computers offers great performance in a stylish all gloss black lightweight design. With its stunning 7-inch touch screen display, this mini-notebook offers you the best on-screen performance, enabling you to operate full Microsoft Office applications, watch films or view pictures of your last holiday. All this with the freedom to choose from keyboard, mouse, touch pad, joystick, touch screen and stylus.

The mini-v S37 comes pre-loaded with Microsoft Vista and can act as a Phone, Notebook, MP3 Player and PMP (Portable Movie Player). It also comes with CF (Compact Flash) compatibility to support a 3G data/voice card (where country providers supported).

Using Intel McCaslin technology and configurations that will include Intel Stealy processors, the mini-v S37 is a compact notebook computer thats capable of acting as your office PC.

With an integrated VGA port, 10/100 LAN and USB 2.0 interfaces, you can connect all your desktop peripherals and multimedia devices to the mini-v. With integrated Wireless LAN and Bluetooth you can also take advantage of wireless networks and hot spots whilst out and about.

The mini-v is a stylish and elegant ultra-portable notebook that can handle all your work and entertainment needs.
