aigo

Aigo Power Cabin series products are designed particularly to solve the problem of power supply to digital products. The small-size large-capacity power supplier can charge digital products of different brands, so that you will never feel upset because your digital products run out of power. N2682 is a star product in the Aigo Power Cabin series for its ability to charge notebook PC and mobile phone (Nokia, Sony Ericsson, Samsung, Motorola).

- Large capacity Large accumulator capacity 12000mAh (DC 5V, 16-20V, Max: 3A) provides power supply to digital products.
- High compatibility N2682 is equipped with connectors for different brands of IT products. It can power almost all mainstream notebook PC, mobile phone, UMPC, mp3, mp4, PDA, DV, PSP, etc.
- Convenient and fashionable Stoving varnished surface and compact design create the most convenient and fashionable power supplier.

Accessories in Box :

- DC Power Adapter,
- Case,
- Connectors
