

Waterproof industrial tablet MobiPad
RQT88 v.5

Category:	UMPC - Ruggedized
Manufacturer:	Mobilator
Operating System:	Android 7.0
Display:	8" (800 x 1280)
Brightness:	~280Nit
Processor:	MediaTek MT6753 (8x 1.3GHz)
Memory:	3GB
Hard Drive:	-----
Flash Memory:	32GB EMMC
Touch screen:	Capacitive
Durability:	IP68
Drop:	1m
Shock:	-----
Vibration:	-----
Temperature:	Operating temperature: -20°C -- 60°CStorage temperature: -20°C -- 60°C

Humidity:	0% -- 99%
1D barcode scanner (reader):	No (available in other configuration)
2D barcode scanner (reader):	No (available in other configuration)
RFID scanner (reader):	No (available in other configuration)
Other:	Infrared temperature scanner
Battery:	3.8V 8500mAh Lithium
Working time on battery:	8h
Fast battery replacement ability:	No
HotSwap battery:	No
LAN:	No
WLAN:	IEEE 802.11 a/b/g/n (Dual band)
Bluetooth:	Bluetooth 4.0
WAN:	4G: FDD-LTE - B1/B2/B3/B4/B5/B7/B8/B20 (B12/B17/B28A/B28B)3G: WCDMA: B1/B2/B4/B5/B8
GPS:	Yes
Camera:	Rear: 8Mpx, FlashFront: 2Mpx
In/Out:	Audio Jack Micro USB
Optional accessories:	-----
Docking station connector:	Yes
VESA standard – holders and mounts support:	No
COM port:	No
Magnetic card reader (MSR):	No
Microchip card reader:	No
Contrast:	-----
Graphics card:	ARM Mali-T720`
Chipset:	-----
BIOS:	-----
Casing material:	-----

Flash Card Reader:	micro SD (max. 128GB)
CD/DVD:	-----
Audio:	Built-in microphone and speaker
Keyboard:	Onscreen
Additional Navigation Devices :	-----
Color:	-----
Swivel Hinge:	-----
VGA out:	No
TV Out:	-----
TV Tuner:	No
Security:	-----
Waterproof:	IPX8
Sand and dust:	IP6X
Size:	226.4mm x 142mm x 13.5mm - 665g
Fanless casing:	Yes

MobiPad RQT88

Modern tablet, designed to work under the harshest conditions. The IP68 standard guarantees dustproof and waterproof performance.

SPECIFICATION
RESISTANCE
DATA COLLECTING
WIRELESS COMMUNICATION
APPLICATION
AVAILABLE VERSIONS AND ACCESSORIES

MobiPad RQT88 is a modern, waterproof industrial tablet designed for extreme applications. It has a specially designed, reinforced construction that meets the requirements of IP67, which confirms the protection of the device against dust and water. Like the military equipment, the tablet has the MIL-STD 810 military standard.

SPECIFICATION

MobiPad RQT88	
Processor	MediaTek MT6753 (8x 1.3GHz)
Graphics	ARM Mali-T720
Operating system	Android 7.0
RAM	3GB DDR3
ROM	32GB EMMC
Display	8", 800 x 1280
Touch screen	Capacitive

MobiPad RQT88	
Battery	3.8V/8500mAh
Camera	2Mpx Front 8Mpx Rear + Flash
Protection	IP68 1m. drops
Communication	3G/4G Bluetooth NFC Wi-Fi GPS
Connectors	Micro USB Audio Jack
Memory card	Micro SD (max. 128GB)
SIM card	2x Micro SIM
RFID Reader *	RFID UHF
1D Scanner *	Newland NLS-EM3096
2D Scanner *	Newland NLS-EM3096

*

Optional equipment, available on specific versions only.

 Detailed specification of the device is available in the tab "Technical data".

Dustproof industrial tablet

MobiPad RQT88 was equipped with high performance, energy-efficient MediaTek MT6753 processor. Inside, there are eight cores that allow for more efficient processing of multiple tasks simultaneously. Shared caching, which uses a multi-level hierarchy, is dynamically allocated to each processor core according to the load. This reduces the average access time to main memory. Enhanced graphics card technology lets you enjoy full HD video and movies. Low power consumption guarantees long battery life.

Ergonomic design

MobiPad RQT88 industrial tablet is designed for resistance and convenience. The sleek and rugged 13.5mm thick design and stylish case will make the tablet very well suited for industrial use and more. The unique size has been carefully thought out to make the device more comfortable and ergonomic. The non-slip casing makes it safe and secure to hold it in your hand, and the rubber corners further protect your device against possible damage as a result of falls.

Dimensions	226.4mm x 142mm x 13.5mm
Net weight	665g

Capacitive screen

With the capacitive screen, the reaction of the device is not to directly press the screen, but to change the electrostatic field at the point where the device is touched. This allows for much more precise handling and gentle brushes on the screen. In addition, we can use multitouch technology, the ability to control our tablet or the collector with a few fingers at once.

RESISTANCE

IP68 Protection

The IP standard defines the degree of protection provided by the enclosure of an electrical device against such factors as: access to dangerous parts inside the enclosure, penetration of foreign matter, splashing or immersion.

IP6X	No ingress of dust, complete protection against contact. A vacuum must be applied. Test duration of up to 8 h
IPX8	The equipment is suitable for continuous immersion in water under conditions which shall be specified by

MIL-STD 810 Standard

The MIL-STD-810 is a strict military standard used in the United States Army. It determines the immunity of the equipment to severe environmental and weather conditions such as extreme low and high temperatures, temperature changes, rain or dust, as well as various accidents (shocks, floods, high altitude falls, etc.). Although the MIL-STD-810 is mainly used for military equipment, it is often used by private companies that produce equipment that requires unmatched durability.

1.2m drop resistance

Specially designed construction gives the machine a chance of accidental falls from up to 1.2 meters in operating mode, even on hard surfaces. In addition, the tablet screen is protected by specially tempered glass Gorilla Glass.

Extreme temperatures

MobiPad RQT88 is suitable for continuous operation in both low and high temperatures in the range of -20 ° C to 60 ° C. When the device is off, it can handle temperatures ranging from -20 ° C to 60 ° C. In addition, the rugged industrial tablet performs well in rooms with increased humidity, ensuring proper operation even with 99% relative humidity.

Working Temp.	-20°C to 60°C
Storage Temp.	-20°C do 60°C
Humidity	0% do 99%

DATA COLLECTING

NFC (option)

Short-range communication, known as NFC, is a radio communication standard that allows for wireless data exchange at a distance of a few centimeters. This technology is a simple extension of the proximity card standard that combines smart card interface and reader in one device. NFC devices can communicate with existing equipment in the standard ISO / IEC 14443 (cards and readers) as well as with other NFC devices, and thus are compatible with existing and already used public transport and payment infrastructures such as MIFARE.

ance sch
mobilar

Read distance 3cm

RFID Reader (option)

RFID LF (option)	<u>Option 1:</u> 134.2KHz (FDX), read distance up to 3cm Support ISO11784/5, IC cards <u>Option 2:</u> 134.2KHz (FDX), read distance up to 10cm Support ISO11784/5, IC cards <u>Option 3:</u> 125KHz, support ID cards
RFID UHF (option)	Built-in ceramic antenna Support EPC C1 GEN2/ISO 18000-6C protocol Read distance up to 1m

Barcode scanner (option)

Barcode Reader allows you to read, decode and transfer stored data in barcode to your computer. Thanks to dynamic scanning method and the large range of reading, data collector is capable to carefully collecting data, which helps to increase the rate and efficiency of work. Simplified installation procedure, convenient and intuitive design allow to start scanner work very easy and quickly.

WIRELESS COMMUNICATION

4G Module

4G technology is based on a radio network with fast transmission and the rare occurrence of downtime or transfer errors. The main distinguishing feature of the 4G from its predecessor (3G) is the speed of transfer between devices. The fourth generation network offers 100 Mb / s of mobile internet speed and 25 Mb / s of packet transfer. Technology enables users, including: extremely fast radio networks, Internet access, personalized telephony, and access to modern media and games services.

4G Module	<u>FDD-LTE:</u> B1/B3/B5/B7/B8 2100/1800/850/2600/900 <u>TDD-LTE :</u> Band38:2570 MHz - 2620 MHz, Band39: 1880 MHz - 1920 MHz, B41: 2555-2655MHz, B40: 2300-2400MHz, B38/B39/B41/B40/B38/B39/B40/B41
3G Module	<u>GSM:</u> 850/900/1800/1900 B5/B8/B3/B2 <u>WCDMA:</u> B1/B2/B4 2100/1900/1700 <u>TD-SCDMA:</u> B34/B39

GPS Navigation

Waterproof tablet MobiPad RQT88 is equipped with a professional GPS module with GLONASS support, combining low power consumption with high accuracy. Navigation is fast and smooth, allowing you to easily and easily reach any destination.

Bluetooth 4.0

Bluetooth enables wireless short-range communication between various

electronic devices, such as the keyboard, computer, laptop, palmtop, mobile phone and many others. In the fourth version of this standard, energy consumption was reduced considerably, at the expense of lower transfer costs, and real operating coverage increased.

Wi-Fi network

Dual-band Wi-Fi provides fast network access wherever you can connect to secured or open Wi-Fi networks. This is a convenient solution for people who have a work or residence router and a wireless network that can be used at no extra cost. The shock-resistant industrial tablet, the Emode I18H, is equipped with the latest 802.11n technology, which allows file transfer speeds up to 150 Mb/s.

Standards	802.11(a/b/g/n)
Frequencies	2.4GHz/5.8GHz (Dual-Band)

APPLICATION

Trade and Services

Thanks to their size and light weight, tablet and smartphone data collectors are a useful tool for sales representatives. Today's applications running under the collector system enable even entering the data collector's contractor database, which allows us to later search for it quickly by name or NIP number. We can do the same with our commodity base, which can work in parallel with the database of contractors. Additional use of collectors in the trade, such as sending orders or invoices directly to the company through the

GSM network or Wi-Fi.

Industry and Construction

Industrial tablets and data collectors are characterized by high resistance to adverse working conditions. Tightness, dust and water resistance of enclosures, certified by IP (dust and water resistance standards) and often MIL-STD military standard, can withstand even the harshest conditions in industrial infrastructure or on the construction site. With appropriate applications, collectors can be used for control and control of various industrial processes, as well as for data collection and analysis.

Warehouse

An industrial data sheet is the ideal solution for quick stocktaking. In addition, depending on the software used, it streamlines the process of entering and delivering goods into the warehouse, enables price control and dispensing, helps to collect and order orders, and identifies customers and servicing the rental. The advantages of using data collectors are undoubtedly: time savings, customer satisfaction thanks to the correct price and speed of operation.

AVAILABLE VERSIONS AND ACCESSORIES

The industry-leading MobiPad RQT88 tablet is available in several versions to suit different needs. By clicking on the hardware configuration number you will be redirected to the product with the parameters given in the table below. In addition, on request, you can create a configuration not currently available in the offer.
