

Winmate M101B - Vehicle Charger

Category: Accessories - mobile

Manufacturer: Winmate

Product from the Archive - production finished

Description

- Auto connector (Universal)
- LED Indicator
- 11~32V DC IN
- 19V/ 3.42A DC OUT

Specification

Input Operation voltage	11V--16VDC and 22V--32VDC for operation voltage (After turn on)Turn on voltage must be over 11.5VDC.
Efficiency	85% (minimal)
Maximum input current	10A
Inrush current	No damage to the relative components
Output voltage	19VDC+/-5%
Output current (Max.)	3.42A
Maximum rated output power	65W continuous
Protection	Over current protection Output over voltage protection Over temperature protection

Full specification available in the "**Download**" tab
